FEDERAL MEN

HELD IN \$5000

Charged With Firing Upon Machine and Wounding Woman Tuesday

Driver of Machine Thought They Were Hold-up Men and Refused to Stop

MALONE, N. Y., July 6.—Residents along the Canadian border have been aroused by the wounding of Miss Belle Baker last Tuesday night, and the subsequent arrest of three federal officials charged with assault. It is alleged that the officers, who were watching for rum runners, fired at the automobile containing Miss Baker and her father, when the latter refused to stop at the command of the government agents.

Mr. Underwood made no reference to domestic politics nor the possibility of his becoming a presidential candidate which, he said, before his departure for Europe, he would discuss upon his return.

It would not be necessary, he thought, for the United States to enter the League of Nations to fulfill its war-time pledges to aid in securing the peace of the world" and he declared the international court of justice held nothing that could "either solve or direct the difficult and dangerous economic and financial problems that are paralyzing the onward pro-

gress of business development in Europe of some definite scope." He found more causes for war than the policy "leading to the ultimate peace there at present, he said, than existed when he left in January, 1914, and predicted that her father, when the latter refused to go to the trial of the financial and economic conditions abroad were removed, they would bring "distress and disaster to the world." The Malone chamber of commerce took official action in the matter when its board of directors adopted a resolution requesting Senator Wardlow and Congressman Smith to use their influence for a thorough investigation of the indiscriminate use of firearms in stopping suspected cars along the border. The resolution also suggested that all government agents be informed, in order that they may not be mistaken for hold-up men.

Mr. Baker said he thought the officers were robbers and that when they forced him to stop, he stepped on the accelerator and was fired upon by them, one bullet striking his daughter in the side but not wounding her seriously. Soon after he had reached Malone and reported the "hold up" to the police, the federal officers arrived. Mr. Baker declared he recognized them as the persons who fired at his car. They subsequently were arrested on warrants and were held in bonds of \$500 each for a hearing on July 17. The men under arrest are prohibition enforcement Agent Robert D. Angell, his assistant, Merchant Phelps and Customs Officer Rupert Nisheth.

STATE BARS SALE OF SECURITIES

BOSTON, July 6.—The state department of public utilities today banned the sale of the securities of 205 corporations in this state because they had failed to file the required information on or before April 30. The law provides that such failure shall constitute prima facie evidence that the sale of the securities would result in fraud.

HENLEY-ON-THE-THAMES, July 6.—GAY, the Associated Press) Hilton Bryan, the Canadian sailor, was eliminated from the competition for the Diamond Sculps today by D. H. L. Quinn, British carman.

Bathe Them in TIZ

NO more aching, burning, swollen, shoe-crinkled feet. No more pains in corns or callouses. No matter how much foot trouble has tormented you, or what you have tried without relief, just use "Tiz."

"Tiz" draws out the poisonous exudations which pull up the feet. "Tiz" gives such quick relief it is almost magical. Your shoes will not seem tight and your feet will not longer be sore and tender. Get a box of "Tiz" at any drug or department store. A whole year's foot comfort for a few cents.

National Education Association to Begin Work Towards This Aim

SAN FRANCISCO, July 6.—Organization of the World Federation of Educational associations whose principal aim is to promote universal peace through educational methods was effected at a meeting of delegates from about 40 countries who are attending the National Education Association convention here. Augustus Thomas, state commissioner of education of Maine, was elected president. Resolutions adopted provided for observance of May 18 as "Good Will Day" in schools of all lands.

Cooperation to improve the school systems of all countries.

Establishment of an international university whose chief function will be the study of inter-racial questions and the relations of education to these questions.

Establishment of a universal library service.

METAL WORKERS STRIKE

More Than 60,000 Quit Work at Noon Today in Berlin, Germany

BERLIN, July 6.—(By the Associated Press)—More than 60,000 of Berlin's 250,000 metal workers struck at noon today following a ballot last night by which the union rejected for the second time the agreement reached between representatives of the government and the employers.

ROW IN DAVIS STREET HOUSE ENDS IN COURT

As the result of a quarrel at 39 Davis street about 11:55 o'clock last night, John Smith and Waldo Karkota were locked up in the police station charged with drunkenness, and Frank Ponaski, sent to the Lowell Corporation hospital, suffering from scalp wounds apparently inflicted with some sharp instrument. The trio was taken into custody by Officer Patrick Connolly, who was attracted by loud noises. When he arrived he found the three men in a heap in the hallway. A sprinkling of blood gave evidence of a conflict and the officer immediately summoned the patrol.

At the police station, Ponaski was found to be suffering from a wound in the head. Dr. M. A. Tisch, city physician, was called and after a hurried examination, the man was ordered removed to the hospital. It was at first believed that he was suffering from a fracture of the skull, but an x-ray proved his injury to be of a minor nature and he will probably leave the hospital tomorrow.

In the district court this morning Smith and Karkota were released on \$250 each until next Tuesday.

BIG ATHLETIC MEET AT CAMP DEVENS ON 14TH

CAMP DEVENS, Ayer, July 6.—J. W. E. Jones, Jr., captain of Brown university track team, was in Camp Devens yesterday visiting the 18th Infantry. Before leaving he announced he would bring six men of his team to camp for the big athletic meet of July 14 when the regular army, the Massachusetts National Guard and the Reserve Officers' Training corps will meet in general track and field events.

On that date there should be in the neighborhood of 15,000 troops in camp. Some excellent performances should show up, particularly from the Reserve Officers' Training corps camp. The young men now in their third week of training will represent entries from many colleges throughout the New England states.

Leading college officials have been invited to lend their services in the management of the events on the field. Some of the unusual events will include greco chase, Roman race, mauls and horses, with jumping events for officers.

SCHOOL COMMITTEE IN LONG SESSION, SPEND CONSIDERABLE TIME IN DISCUSSION

Controversy Over Resignation of High School Teacher—Board Elects Six New Kindergarten Instructors and Selects Teachers for Summer Review Classes—Committee Votes Not to Repair Edson School

At a prolonged meeting of the school committee last night, the weariness of the session was broken here and there by snappy bits of repartee between the superintendent of schools and members of the school committee. The principal subject of discussion was the resignation of Miss Jennie C. Mehan, teacher of household arts in the high school. It was finally accepted with the proviso that Miss Mehan be granted either a private or public hearing with the high school master and superintendent of schools present.

The matter of repairing the Edson school also came up for action and after a lengthy discussion it was decided not to repair the school at the present time.

Other matters taken up were the granting of certificates, electing of a teacher for the vocational school to succeed James T. Gearin, electing kindergarten teachers and teachers for the summer elementary review class at the Green school and the summer high school review class, as well as numerous routine matters.

Meeting in Detail
The meeting was called to order at 8:10 p.m., with all members present. Following the reading of the minutes of the last meeting, Supy. Molloy was instructed on motion of Mr. Mullin to insert into the minutes the fact that a letter of application from Philip J. Maguire as a summer instructor of shop-work was read.

Mr. Molloy read the resignations of Miss Jennie C. Mehan as teacher of household arts at the high school, reason not given, and James T. Gearin of the vocational school, who has moved the acceptance of Mr. Gearin's

resignation and Miss Mehan's from the high school. Mr. Gearin's resignation was accepted unanimously and a vote of thanks extended. A discussion followed concerning the working of the motion concerning Miss Mehan and Mr. Riley amended the motion to read "as a teacher in the city of Lowell," later withdrawing his amendment.

A roll call vote on Mr. Delaney's motion resulted in its acceptance.

Mr. Delaney immediately moved that Miss Mehan be granted a private or public hearing as she so desired, at which the master of the school and the superintendent of schools be present. This was voted with Mrs. Pearson, Mr. Mullin and Mr. Riley voting against it.

Certificates of the first, second and third grades were voted to numerous applicants.

A letter from Caroline A. Downey, president of the Teachers' organization, concerning the method by which the teachers are paid, was referred to the city treasurer.

A letter from Philip J. Maguire in which he refused to accept position as summer shop-work instructor, as voted at the last meeting, was read. Before this was accepted Mr. Delaney took exceptions to any suggestion that in voting for Mr. Maguire he was influenced by racial or religious prejudice, as he said there had been such suggestion made. Mr. Riley moved the acceptance of Mr. Maguire's resignation and election of Mr. Gulesian and on a roll call, Mr. Delaney voted yes under protest. Mr. Delaney did not vote as there was no other recommendation. Mr. Mullin, Mrs. Pearson, Mr. Riley and the mayor voted yes and Dr. Slaughter refused to vote and Mr. Gulesian was elected.

A letter from the Church of All Nations asking for the loan of 100 pairs of dumbbells for the summer, was read and the request granted. This letter caused considerable merriment, and it was suggested that volunteers be called for.

A letter from Principal Thomas F. Fisher of the vocational school was read. In this letter Mr. Fisher stated that as the registration was to be lower next year, there would be no necessity of hiring Mr. Gaudette for next season. This matter was laid over until later on in the meeting.

Several other routine matters were handled at this time and Mr. Molloy reported on other matters that had been laid over from previous meetings. It was requested some time ago to have the state board of education conduct a survey in certain school districts and Mr. Molloy reported that the board will assist the Lowell school authorities in such a survey next fall if so desired. The superintendent was notified to call the attention of the city council to the school committee's request that land be seized near the Tenth street, Riverside and Butler schools so that portable schools may be erected to relieve housing conditions.

Mr. Molloy then brought up the matter of repairing the Edson school, and stated he believed the school should be repaired so that the upper as well as the lower portions of the school will be safe for use when school opens next September. Mr. Riley moved that the business agent be instructed to get in touch with the superintendent of lands and buildings relative to the proper repairs for the school.

Dr. Slaughter called on Major Walker R. Jayes, art instructor in the schools, to tell the board a little about the Edson school, particularly as to the cost of making necessary repairs. Major Jayes stated he did not know and did not have any idea of how much repairs to the school would cost, but believed it would be a large sum. Mr. Riley's motion was defeated on roll call with Mrs. Pearson, Mr. Riley and the mayor voting in favor of it.

Mr. Molloy then asked for authority to make the Butler school a junior high school. Mr. Riley moved the acceptance of this. Dr. Slaughter opposed opening a new junior high school until one real junior high was established in a building of its own and not mixed up with the elementary classes. A new building for junior high work would mean another two million dollar plant for the city said Mrs. Pearson, and stated it was too bad that the children in the Butler district cannot have the advantages of a junior high school.

Mr. Delaney asked that figures concerning the number of junior high students going into the sophomore class from the Washington school be given, as requested some time ago, and he inquired why, if parochial schools could send pupils to high school from the eighth grade the public schools could not do so, and evolved a doubt as to whether there was not some special reason for pushing the junior high schools.

Mr. Molloy explained the way the junior high schools work out and stated that about 60 per cent of the Washington school class would enter high school as sophomores next September. Dr. Slaughter stated it was not advisable to wait until a new school was built in the South End before organizing junior high there. Mr. Molloy stated that the junior high could be changed into the new building whenever the school committee said so.

Mr. Riley's move of acceptance was ratified with Mr. Delaney and Dr. Slaughter not voting.

Mr. Molloy then requested that the teachers who taught in the summer review classes at the Green school be elected for the same work this year, to work from 9 to 11:30 in the morning and to receive \$3.50 per session. The teachers doing this work last year were the Misses McArville, Barrows, Mc-

Keon, Walsh, Glynn and Greves and chosen. Mr. Molloy stated that unless

Miss Barrows has requested a leave from this work this year, he suggested Miss Provencher to take her place.

This was accepted unanimously.

Mr. Molloy then suggested that sum-

mer review classes be held at the high school for six weeks with classes from 8:30 to 11:30 a.m. and the teachers to receive \$1.50 a session. He recommended Morton Sturtz, Edward Joseph G. Peacock, Lorette MacLennan, Jessie E. Hinton, E. Generous Lawrence and Helen E. M. Chouteau. During a discussion which followed concerning the method by which the teachers were

to be awarded the classes, Mr. Molloy

then recommended Tim-

othy Tully and Raymond Hobson for the position resigned by Mr. Gearin,

at the vocational school and Mr. Tully was elected, with Mr. Mullin, Mrs. Pearson and Dr. Slaughter voting for Mr. Hobson.

The matter of doing away with Mr.

Gaudette's services at the vocational school was then taken off the table and as Mr. Fisher was present he was questioned concerning this matter. Mr. Gaudette was elected again subject to the conditions that he do the summer work called for by the state and that, if the classes were not large enough to allow his being hired next September, he be given a leave of absence for one year.

Permanent Substitutes Named

Mr. Molloy then asked the school committee to give the number of permanent substitutes to be taken from the list that will be made up as a result of the examination held in June, as the law requires that the number be made before the result of the examination is known. As he already has a large number of substitutes he requested that 15, or 20 at the most, be named from this year's list. This also caused considerable discussion and on the motion of Dr. Slaughter, 25 was the number decided upon. Mr. Mullin talked considerably on a new method of handling the eligible by the formation of a cumulative list and Mr. Molloy seemed to favor the suggestion. No action was taken on this, however.

Mr. Molloy then named 20 permanent substitutes to be awarded third grade certificates.

Mr. Delaney moved that Josephine V. Grant, Arthur Lynch, Katherine V. Hennessey and Arthur Sullivan, whose names did not appear on the superin-

APPROVES AIR ROUTES

England Plans to Be Connected by Air With All Her Possessions

LONDON, July 6.—The latest plan for commercial aviation in England is the establishment of a British Imperial Airship service which will connect England with all the British possessions by regular air routes. The first part of the scheme, which was originated by Commander C. D. Burney, R. A. F., provides for the establishment of a service of super-Zeppelins to Australia. This has been placed before the air ministry, and there is every prospect of its adoption. The Burney scheme would immediately make England the foremost country in commercial aviation, and add considerably to the strength of the air forces. The fact that England has not already a gigantic fleet of commercial planes is not due to lack of enthusiasm on the part of the commercial aviation companies. The English companies, now operating air lines to Paris and Holland, with the aid of subsidies from the government, are making a success of their projects.

The government has previously been reticent in accepting these plans because of the huge sums involved and the small chance of such lines ever paying, but it is now expected that the air ministry will push the establishment of new routes.

Briefly the scheme provides for the establishment at once of a super-Zeppelin service between London, India and Australia. The Zeppelins will carry 250 passengers, goods and mail, and make the trip to India in three and a half days and to Australia in a week. Such airships will have a speed of 50 miles an hour and will be capable of a non-stop flight of 12,000 miles, about half way around the earth. This would cut the travelling time between these places to less than one-fourth the present time.

If the scheme is approved the service will start in about eleven months with a bi-weekly service of passenger ships from London to Bombay and a little time later, to Perth, Australia. The ships will not use gasoline as fuel. They will be the first to use a non-inflammable mixture of kerosene and hydrogen which has just been perfected by experiments under the direction of the air ministry.

The second stage of the empire service will be the establishment of a route to Canada, which will be followed by services to South Africa, Hong Kong and Singapore.

COMMON SENSE IN SAFETY EDUCATION

NEW HAVEN, July 6.—By the Associated Press.—Safety instruction in the public schools which teaches children to avoid accidents in street traffic is to become a part of education as the three "R's" in this day of complete civil action. Dr. E. George Payne, professor of education at New York University, told the convention of school superintendents and principals of education in session at Yale University today.

Eighty thousand men, women, and children met death by accident in the United States during the last year, the speaker said. Of this number 40,000, a life every ten minutes, might have been saved by the general application of safety instruction in schools. "The reason for this needless sacrifice is that the development of modern civilization has been so rapid our intelligence has not kept up with it."

"Installation of safety instruction would require but inconsequential changes in present public school curriculums," Dr. Payne declared. "The method simply assumes that the teacher utilize accident situations to give purpose to the school work. In writing exercises instead of writing the familiar, 'Now is the time for all good men to come to the aid of the party' we can write 'In crossing the street look first to the left and then to the right.'

"Instead of drawing curtains and shades for safety, something within the experience of the child should be chosen, such as the right way and the wrong way of getting on and off street cars, and the right way of crossing streets."

No Corns

The simplest way to end a corn is Blue-jay. Stop the pain instantly. Then the corn loosens and comes out. Made in clear liquid and in thin plasters. The action is the same.

QUEEN'S ESTATE IS SENT TO MUSEUM

HONOLULU, July 6.—The Bishop museums here will be the sole beneficiary of the remaining estate of the Queen Liliuokalani, consisting now in the main of priceless robes, crowns, jewels, crests, silverware, decorations, and insignia of royalty, according to the trustees.

Queen Liliuokalani, last of the reigning monarchs of Hawaii, died in 1927. Four suits have been filed to break her will, the last having been withdrawn within the past month. Most of the persons to whom she made bequests, including John Almukon Dorn and Joseph Aea, her wards, and Prince Jonah Kuhio Kalanianaole, her died, and the articles bequeathed to them will be turned over to the Bishop museum. It will be six months before the estate can be distributed.

According to the executor, Colonel C. P. Faulek, who was chamberlain to the queen.

The estate was valued at approxi-

mately \$50,000 at her death, but many of her possessions, including Washington Place, her residence, have been sold and the proceeds placed in the Liliuokalani trust. The income from the trust goes toward the support of schools and hospitals. Washington Place is now the official residence of the governor of the territory.

Queen Liliuokalani, last of the reigning monarchs of Hawaii, died in 1927. Four suits have been filed to break her will, the last having been withdrawn within the past month. Most of the persons to whom she made bequests, including John Almukon Dorn and Joseph Aea, her wards, and Prince Jonah Kuhio Kalanianaole, her died, and the articles bequeathed to them will be turned over to the Bishop museum. WILL FIGHT PROHIBITION

PARIS, July 6.—The international conference of wine producing countries of Europe, at its closing session this city, adopted resolutions setting forth the necessity of replying in kind to the prohibition of the prohibitionists, and agreed upon strict rules to guide wine growing countries to uniform action in this regard.

ITALIANS GOING TO MEXICO

MEXICO CITY, July 6.—Italian emigrants are expected in large numbers to Mexico and probably will settle in the states of Tamaulipas, Jalisco, Tlaxcala and Nuevo Leon. Arrangements for their colonization have been made by agents of the Italian immigration service at Washington. The first batch of arrivals probably will number 600

DON'T USE CLIPPERS ON YOUR AIREDALES

NEW ORLEANS, July 6.—Vehement expostulations against the turning of Airedales into Irish terriers by New Orleans citizens come from Dr. W. J. Balkan, veterinarian at the municipal zoo. The burden of the veterinarian's complaint is that mistakenly compassionate owners of Airedales are having their dogs clipped, with the erroneous idea that such treatment will cause less suffering from heat during the summer months.

It isn't so, says Dr. Balkan, for the Airedale differs from other dogs in that it has two coats of hair instead of one. The outside coat is of wiry texture while the inner one is soft and downy. Steel clippers, parcelling away the soft lower coat as well as the upper one, and, according to the veterinarian, rob the Airedale of its position as a rare specimen and transform it into an oversized Irish terrier, for whom

the lower coat is clipped, the distinguishing black saddle of the breed grows back as a pale yellow or white. Dr. Balkan warns Airedale owners that their dogs should be plucked a goose instead of clipped. The plucking removes the outer wiry hair and preserves the inner coat of distinguishing down. The veterinarian neglected to say how many muzzles would be required to hold an Airedale's jaws during the plucking process.

TO DESTROY SNAKES WITH POISON GASES

SAN ANTONIO, Texas, July 6.—(By the Associated Press)—Poisonous gases will be used in the destruction of Texas rattlesnakes, according to present plans of the predatory animal bureau of the United States department of agriculture, assisted by the chemical warfare service of the Eighth Army Corps area. Major George M. Halloran, chemical warfare officer of

the corps, will begin experiments soon to determine which gas is the most effective in killing snakes.

Phosgene generally is considered by the bureau to be among the most fatal to animals with respiratory systems and will be tried first. Other gases which may be used in the experiments are chlorine, which asphyxiates, and mustard gas, which sears or burns. The preliminary tests will be conducted at Fort Sam Houston, under the plan.

It is planned to ascertain through the summer which gas is most deadly to the rattlesnake, and when cold weather comes and the reptiles have gone to dens and hibernating places, to experiment on them en masse," said an announcement.

MEXICAN INVOICE ON ALL PARCEL POST

MEXICO CITY, June 18.—(By the Associated Press)—All parcel shipments from foreign countries to Mexico must be accompanied by a commercial invoice, certified by the Mexi-

can consul nearest the point of shipment, according to a recent government order. For a shipment less than \$5, the certification is free. From \$5 to \$50 the charge is \$1 and from \$50 upward the charge is \$2.

Shipments arriving without an invoice will result in a fine being imposed of 25 centavos for goods valued at less than 100 pesos, and 50 centavos for those valued at more than 100 pesos.

TO WOMEN WHO OVERDO

Thousands of American women in our homes are daily sacrificing their lives to duty. In order to keep the home neat and attractive, the children well dressed and tidy, women overdo. Soon a weakness or disfigurement is brought on and they suffer in silence, drifting along from bad to worse. For 40 years Lydia E. Pinkham's Vegetable Compound has proved a boon and a blessing to women in this condition by restoring their systems to a normal healthy condition. Why don't you try it?—Adv.

RAILROADS WILL OPEN UP TWO MILLION ACRES OF FARM LAND IN CALIFORNIA

MEXICALLI, Lower California, July 6.—Plans for the construction of 150 miles of railroad through Lower California by the National Railways of Mexico were opened July 1, according to an announcement of Jose L. Lugo, military governor of the northern district of Lower California.

The construction of this railroad, government officials state, will make available more than 2,000,000 acres of farming lands, particularly adapted to cotton, for which water can be obtained from the abundant flow of the Colorado river. A total of \$2,000,000 has been made available for the work, and an additional \$2,000,000 has been set aside in the treasury of the northern district of Lower California for future work.

This pioneering railroad construction, according to Mexican officials, is the biggest piece of constructive work since the United States built its Alaskan railroad. The conditions contended with are equal in hardships and opposition from nature, but at extremes in those varieties. Cold, snows and the conquering of mountain fastnesses prevail in the north. This southern operation involves combat with scorching heat in the summer season, death dealing sand storms, miserable chill in other portions of the year, and at all times absence of water or living thing upon which to subsist, except at the shores of the gulf, where water fowl, fish and shell fish abound.

In addition to opening up farming lands, government officials state, the lands, government officials will make possible the development of a wonderful area of mineral lands, rich in surface showing of gold and silver, heretofore too isolated to permit of profit.

Joyous Bucharest is the Fastest Growing City in All Europe

BUCHAREST, July 6.—Bucharest is growing faster than any city in Europe. It is spreading out in all directions over the neighboring plains in an effort to house its population of a million, which is still growing. In 1913 the capital's population was only 338,000, which included 35,000 Austrians and Hungarians and 42,000 Jews.

Bucharest is the joy city of Europe. Love and laughter, song and wine, dancing and card-playing are as dear to the Rumanian heart as to the gayest spirits in Bohemia.

The Romanian eats five times a day, and is ready for another repast at midnight. He dislikes going to bed. He loves his wine-jug and his cards. And he would die without his rum-coffee and his gossip about the scandal of the town.

The Calle Victoriei, Bucharest's Fifth avenue, is studded with pretty women in the latest Parisian gowns and jewels. Smart looking army officers in high patent-leather boots and blue and gold uniform strut along the street, shedding smiles on Rumania's lovely femininity. Among these dashing Don Juans and Lotharios one sees motley groups of gypsy men and women with their numerous progeny, some of the children without a morsel of clothing. For this is the land of Rumania, of the race from which the gypsy fortune-tellers and vagabonds of the United States claim descent. And the gypsy believes that beauty undressed is adorned the most.

Rumanian women, who admittedly are the most attractive and fascinating in the Balkans, owe their striking beauty to their strain of gypsy or Greek blood, their dangerous eyes and their olive complexion. They are

buoyant and vivacious, romantic and pleasure-loving.

Both sexes in Rumania use perfume, rouge and cosmetics in profusion. The cosmetic business is one of the most profitable in Rumania. The Rumanian men are tall, handsome and dark, but are inclined to be effeminate. They wear form-fitting jackets, waistbands and often monocles and spats. This, of course, does not apply to the peasants, who are a sturdy, homely, energetic lot, and constitute the backbone of the country and its chief hope for the future.

Although Bucharest prides itself on being the Paris of the Balkans, and French is spoken more than any other foreign tongue, there is a great desire on the part of the educated classes to learn English. American tutors are much in demand.

There are at present three newspapers printed in French, which is the court and society language, but it probably will not be long before a daily paper published in English will be established.

Queen Marie, who is an accomplished writer, has published all her

books in English, and that is the language of the royal family, although both the king and queen command facility in half a dozen other tongues.

NOTE BIG INCREASE IN AUTO TRAVEL

CHICAGO, July 6.—There has been approximately fourteen per cent more travel by touring automobiles through the Central States, both east and west bound, during the first five months of this year than during the corresponding month of last year, according to statistics compiled by the Chicago Automobile club.

During the first five months in 1923, 17,448 motorists registered at the Chicago club, as compared with 15,165 during the first five months of 1922.

The answers to the call of the road began in January, when 1,960 tourists registered. This was 50 per cent more than in 1922 when 1,400 tourists stopped at the club during January. The

travel continued heavy during February, when 1,276 registered as compared with 1,003 during February, 1922. The March figures were 2,033 in 1923 and 1,584 in 1922. In April 3,016 registered as compared with 3,552 in April, 1922.

The increase jumped again in May when 8,265 tourists registered as compared with 7,359 in May, 1922.

IMMIGRATION TO CANADA GROWING

OTTAWA, Ont., July 6.—Immigration into Canada increased 31 per cent during the first four months of 1923 as compared with the same period a year ago, according to figures compiled by the department of immigration and colonization.

Up to May 1 the figures show, 22,140 immigrants entered the Dominion

when 17,000 registered in 1922. At a meeting of the school board of Dracut held last evening, the principals of four-room schools in the town were granted a salary increase of \$200 a year, while those of the eight-room buildings, were voted an increase of \$100 a year. Miss Aitken, school nurse, received an increase of \$300 a year after she had threatened to resign if her request was not granted. Routing business was transacted with Chairman Albert N. Fox in the chair.

TRADES AND LABOR COUNCIL

President Parker Murphy occupied the chair at last evening's regular meeting of Trades and Labor council. Housing business was transacted and plans were discussed for the Labor day celebration, but no action was taken as the whole matter was put over until the meeting of July 13, at which all delegates are expected to be in attendance.

CONFERENCES ON TRAIN WRECKS REPARATIONS KILL THIRTEEN

French and Belgian Ambassadors to Meet Lord Curzon Again Today

French Government Puts Favorable Interpretation on the Conversations

LONDON, July 6. (By the Associated Press).—It was announced this noon that Count De St. Alaudre, the French ambassador and Baron Monchenu, the Belgian ambassador, would see Lord Curzon this afternoon and ascertain to the British secretary for foreign affairs further information, verbal and written, from their respective governments regarding certain points in their reparations policies on which the British government has sought clearer explanations.

PARIS, July 6.—(By the Associated Press).—French government circles gave out today, a favorable interpretation of the lengthy conversations over the reparations problem that are in progress in London.

It was said the long drawn out negotiations indicated the allies were getting together and talking things over in a most friendly manner, but it was frankly stated there was no sign that France was willing to modify her previous announced reparation program to which the British are opposed.

Eight Are Victims of Derailment of Express in New Zealand

Five Negroes Trampled by Cattle in Freight Wreck in Illinois

WELLINGTON, N. Z., July 6.—Eight persons were killed and 38 injured when an Auckland-Wellington express train was derailed near Tauhara.

Trampled by Cattle
BOCKFORD, Ills., July 6.—Five Negro laborers were killed and 18 injured, when a Chicago, Milwaukee and St. Paul fast freight train was derailed here last night.

They were riding on cars in the center of the train and were trampled by cattle released in the smash-up.

School Committee
In Long Session
Continued

on His motion and it was accepted with Mrs. Pearson alone in the negative. Mrs. Pearson qualified her vote by saying that she refused to vote for the group but would be glad to vote for one or two of the teachers named.

Mr. Molloy then presented a list for election for the second time. It developed that four on this list could, if the committee so voted, be named for the third time instead and this was done. They were Joseph M. Donoghue, William A. Donovan, Louise McKenna and Ethelred Wilmot. Mr. Delaney attempted to have the names of Miss Susan Driscoll, head of the department of household arts at the high school and Philip J. McGuire acted on separately. This was defeated and the entire list elected. The list for the third time was also accepted as was a list for the fourth time and permanent tenure.

Mr. Molloy recommended that Miss Mary A. Dowd be elected to fill the

vacancy caused by Miss McLean's resignation. This was unanimously agreed upon.

New Kindergarten Teachers
Mr. Molloy named six vacancies for kindergarten teachers and named Elizabeth P. Carmichael, Elizabeth Fulton, Esther L. Cooney, Olive Eveleigh, Margaret Hogan and Agnes Joyce for these positions. A discussion concerning lack of knowledge of this election followed but it was finally decided to elect the six for these positions.

A letter from Headmaster Henry H. Harris of the high school, in which he stated that he would need three more teachers for academic subjects next fall, and recommended the choice be made from Josephine Dunlevy, Anna Gardner, Ruth Monahan, Frances O'Brien, C. F. Hale, Agnes Lybrand, and Mary E. Hornby, all of whom came from Lowell, with the exception of Miss McManus who resides in North Chelmsford. Several of the members were unprepared to vote on this important question and after a long discussion in which Mr. Harris was asked for information, the matter was put over to the next meeting, July 19, and that, in the meantime the members of the committees be given a list of applicants, their qualifications and the recommendations of the superintendent.

Mr. Delaney asked that the business agent report on the matter of purchasing four new instruments for the high school orchestra. It was stated that \$600 would buy the four instruments and this was voted.

Mr. Delaney asked that the matter of electing a music teacher be taken from the table. Mr. Molloy stated that another music teacher is not needed now and Mr. Delaney's motion was defeated.

It was voted to send Mrs. Pearson to Hyannis to attend the summer school conference as was done last year.

Miss M. Beatrice Devine was approved for temporary kindergarten work.

Monthly school bills were approved, all in favor except Mayor Donovan. The business agent was instructed to purchase school plans as already voted.

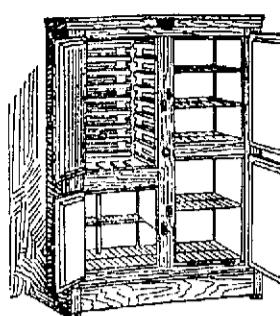

It was voted to pay Miss Mary McLean, teacher in the Girls' Vocational school for time lost from school due to cold which was attributed to the condition of the building following the fire.

On Mr. Riley's motion, George Magarty was elected assistant coach of track for the high school at a salary of \$200 for the term.

Plans for the improvement of the sanitary conditions in the Symonds street and Moody schools were approved.

The meeting adjourned at 12:10 o'clock until next Tuesday, July 10.

FEDERAL MEN ASK FOR HELP

HEALY AROUSES SABOTAGE ON THE LEVIATHAN

Gov. Smith of N. Y. Requested to Help Enforce Volstead Act

Big Increase in Rum-Running Since Governor's Repeal of Act

NEW YORK, July 6—Governor Smith, who signed the repeal of the state prohibition enforcement, will be asked by Federal prohibition officials here to take steps to bring about enforcement of the Volstead act by state peace officers.

Federal officials in conference yesterday decided upon this course because of the increase of liquor running since the repeal became effective.

The Canadian border and Long Island, it was said, were the places where the smuggling was most rampant.

The recent dropping of 18 dry agents and the prospective further reduction of the total force, the officials asserted, have brought about a condition where the aid of the staff authorities is vital.

Sir James Craig Issues Statement in Answer to Free Stater's Criticism

Premier Asserts Ulster is Now Enjoying Peace and Prosperity

LONDON, July 6—The criticism which Timothy Healy, governor-general of the Irish Free State, made of the Northern government in a recent newspaper interview has stirred the indignation of the Unionists.

Sir James Craig, the Ulster premier, who is staying in England, questioned by a representative of the Daily Express, said it would be important for him to take notice of the utterances of the king's representative in the Free State, but that if some political member of the Free State made similar statements he would know how to deal with them.

The premier asserted that Ulster was enjoying peace and prosperity. "Who needs any man?" he added. "Who starts up trouble or creates chaos in a part

Plenty of Evidence of it Says Former Secretary of Navy Daniels

"When Will We Cease to Make Angels of Germans?" He Asks

NEW YORK, July 6—There were plenty of evidences of sabotage on the Leviathan when the former German liner *Vaterland* was taken over by the American government. Former Secretary of the Navy Josephus Daniels has informed the New York Times in a telegram from La Junta, Col.

Mr. Daniels declared his first impulse, on being questioned on the subject, was to ask: "When is the propaganda endeavoring to make angels out of Germans guilty of murder on U-boats and sailors of the commanders in charge of interned German ships, to cease?"

Sabotage on the Leviathan, he said, included boring holes in outboard water pipes and filling them with putty, changing labels on all essential electrical lines, and removing propeller shafts.

Even after two months on repairing the damage, Mr. Daniels said, the navy department did not risk the lives of American soldiers on the ship until after a long trial cruise had been made.

F. H. Gibbs of Gibbs Brothers, engineers, who recommissioned the vessel, recently stated that damage to the Leviathan was due to an accident of the engine which desires to remain under the king's constitution."

The Belfast correspondent of the Daily Express says that Premier Craig with a majority of the Ulster government behind him was not a party to the boundary commission arrangement and so cannot be charged with breaking any agreement, as Mr. Healy had charged.

MOTHER AND SON DEAD

Brockton Woman Turns on Gas—Husband and Two Other Children Survive

BROCKTON, July 6—Mrs. Annette Miller and her 16-year-old son, Lester N. Miller, of this city, were found dead this morning at their home. Suicide by gas poisoning was the verdict of the medical examiner. Police and medical men say the mother turned on the gas from three jets in a chandelier while the son was asleep.

The bodies were found a few feet apart on the living room floor. A husband and two other children are survivors.

WELCOME HOME PARTY

Big Reception Planned for Gibbons When He Returns to St. Paul

ST. PAUL, Minn., July 6—A big parade with several bands, hundreds of automobiles and other features is being planned as part of St. Paul's welcome to Tommy Gibbons when the local fighter returns Saturday from Shreveport, where he was defeated by Jack Dempsey.

Governor Prentiss of Minnesota, Mayor Nelson of St. Paul, and other high officials have signified their intention of taking part in the welcome.

ADVANCE GUARD OF BATTERY B LEAVES

Sergeant Walter P. Mitchell in charge of the detail of nine men from Battery B, 10th Field Artillery, which left Lowell today for Camp Devens with horses, muns, caissons and other equipment of the organization, were given a farewell dinner at Cate's Inn last night by battery officers. The entire equipment was loaded on flat and stock cars at the brewery siding on Main street this morning and sent to Ayer. The battery itself will leave Lowell for the annual encampment at Devens July 21.

The advance guard received its instructions and the plans for the battery at camp at the close of the dinner. Captain George Farnous had charge of the affair. The men in the detail are, Walter P. Mitchell, Fournier, Meesa, Streetier, Coleman, Prystad, Vatland, Riley and Harvey.

OUTLOOK FOR BUSINESS GOOD

Head of Woolworth Firm Says Prices Are Now on Stable Basis

Sees Nothing to Hinder Business for Remainder of Year at Least

NEW YORK, July 6.—"Retail business is good and I cannot see any reason why it should not continue to be good for the balance of 1923 at least," H. T. Parson, president of the F. W. Woolworth Co., declared today. "We do not hesitate to contract for merchandise for future delivery at present prices," he said. "I find interchange prices on a stable basis and for that reason, we are willing to buy ahead. We are not experiencing requests for financial help by manufacturers turning out merchandise for us as was the case last year."

DIVORCE GRANTED MOVIE ACTRESS

LOS ANGELES, July 6.—Carmel

MOVIES ARE INSPECTED

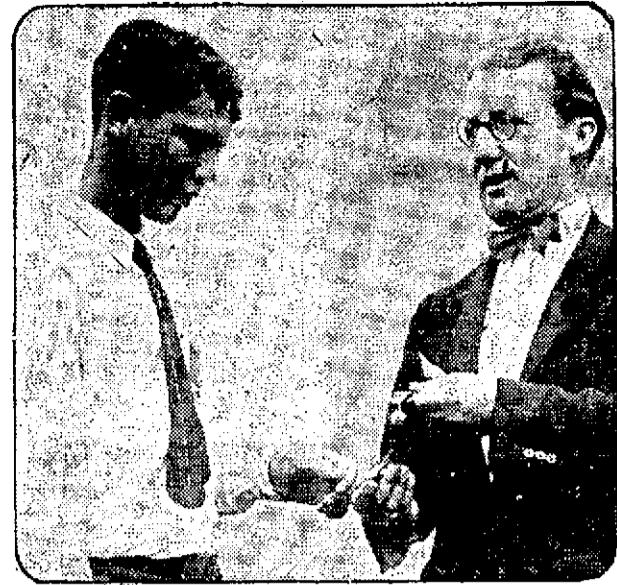

Federal Men, However, Are Shown Only Scenes Preceding Shelby Fight

CHICAGO, July 6.—Motion picture films showing the scenes around Shelby preceding the Dempsey-Gibbons fight there July 4, but not showing the actual fighting between the two boxers, were submitted to the federal authorities here today for inspection. It was said that the government authorities probably would permit the pictures to be exhibited. It was at first reported that films of the actual fighting between Dempsey and Gibbons were seized.

TWO MORE DEATHS FROM EXPLOSION

CAMDEN, N. J., July 6.—Milton E. Burke, one of three boys injured independently day by the explosion of a powder at Westville, died today. Harmon of powder at Westville, died today. Harry Head, another of the boys, died last night while the third, Arthur McKinley, is in a serious condition.

Myers, motion picture actress, yesterday was granted a divorce from her B. Kornblum, attorney and song writer of New York, whom she charged with desertion.

LAWRENCE ASKS STATE ACTION TO CONVENE TODAY

Patience in Telephone Tie-up
in Down-River City is
Exhausted

Chamber of Commerce Sends
Wire to Public Utilities
Department

LAWRENCE, July 6.—The Lawrence chamber of commerce last night sent a telegram to the state department of public utilities at the state house, Boston, urging state intervention to restore telephone service, demoralized here by the strike of operators for higher wages and a seven-hour day. The telegram follows:

"Local telephone service almost completely paralyzed. Apparently no effect is being made by the New England Telephone and Telegraph company to supply adequate service. Please investigate and use your offices to have satisfactory service restored.

(Signed)

ROBERT FANQUILLAR, President.

The chamber of commerce also gave out a message sent to the telephone company headquarters, which read in part:

"On behalf of the subscribers in the Lawrence territory, we request satisfactory service from your company. Lawrence has been particularly patient since the crisis in the wage controversy developed. Since June 30 the service has been completely demoralized, however, and our patience is exhausted."

In answer to the telegram President Jones wired as follows:

"Your telegram concerning telephone service in Lawrence is just received. Certain conditions obtaining in Lawrence and differing materially from conditions in other cities have prevented us from making the same progress in restoring service that we have made elsewhere. If your board of directors would like to discuss these conditions and our plans for restoring service in Lawrence, I shall be very glad to arrange for an official of the company to meet you at any time you may designate."

Fred G. Cherry, manager of the Lawrence telephone exchange, said that several new operators had been hired today, and that "many more" would be secured tomorrow. Normal service, he predicted, would be restored within a week.

Willing to Confer

BOSTON, July 6.—William H. O'Brien, chief of the telephone and telegraph department of the state department of public utilities, said today that he had informed officials of the Lawrence chamber of commerce that he would be glad to participate in a conference with them and with officials of the New England Telephone & Telegraph Co. regarding telephone service in Lawrence.

The Lawrence chamber last night telephoned the department that telephone service in that city was almost completely paralyzed as a result of the strike of operators for increased wages and a seven-hour day and asked that the department investigate and use its offices to have satisfactory service restored.

President Matt B. Jones of the telephone company in response to an appeal from the Lawrence chamber for better service, last night, wired the chamber that conditions in Lawrence differ from those in other cities had prevented the same progress in restoring service that had been made elsewhere.

He expressed his willingness to arrange for an official of the company to meet the directors of the chamber for a conference on the situation.

Mr. O'Brien said that there appeared to be little change in the strike situation in this state. In Boston, he said, telephone service was better than usual, remarking that in recent years it had been far from satisfactory in this city and its suburbs. In a few other cities, he said, the company had

GOOD SCORES MADE IN HOLIDAY SHOOT

Twenty-five marksmen competed in the rifle shoot held under the auspices of the Lowell Fish and Game association at the Martin Flaherty grounds. With the afternoon of the holiday, some very creditable scores were made by the Lowell sharp shooters in the four special holiday events.

The results of the competition, as recorded by Secretary Joseph Burns are as follows:

First event: Shooting at 25 targets from underhand, angles. Fred Morrison, 22; P. Costello, 22; Joseph Garrity, 21; Berry Simpson, 21. Second event: Simpson, 21; Fred Morrison and Burns, each 22; Garrity and John Lundstrum, each 23. Third event: Garrity, 22; Fred Morrison and Martin Flaherty, each 21; Fred Ropos and Crosby, each 20. Fourth event: Martin Flaherty, 24; Garrity and Ropos, each 23; Crosby and Pickard, each 22.

A special event, firing at incoming targets, was won by Fred Morrison with a score of 19. Flaherty, Burns and Ropos were tied with 18 each.

ANOTHER VICTIM OF FIREWORKS DIES

NIAGARA FALLS, N. Y., July 6.—Five year old Helen Glazier died here today in a local hospital a victim of fireworks. The child's clothing caught fire from a match with which she was igniting a sparkler. Her mother and grandmother suffered burns in attempting to save the child.

not yet been able to restore normal service.

Three Strikers Return

SALEM, July 6.—Three members of the striking local 16-A deserted the union and returned to work today. This is the first break in the ranks of the strikers. Today there are 66 operators at work in the exchange, a gain of seven over yesterday.

Miss Julia O'Connor, Boston strike leader, is scheduled to address a mass meeting on Salem common tonight.

AD CLUB OUTING PLANS

Famous Isham Jones Orchestra to Be Big Feature of Event on July 12

With the unique outing held at Willow Dale last summer still fresh in mind, the Lowell Advertising club is putting on the final touches to well laid plans for the big 1923 outing to be held Thursday, July 13, at Merrimack park.

As before this year's outing will be marked with many unusual features and stunts, a girt of surprises in store for all those who attend and the person who does not have a good time during the 13 hours of fun, fun and dancing this year had better con-

sult a specialist at the earliest moment.

The red-letter features of this year's outing are, in brief, as follows: Auto parade from the Hood building, Thoreau street at 12 o'clock noon; souvenir dinner on arrival at the grounds at Merrimack park; 15 games, stunts and novelties for which approximately 60 valuable prizes will be given; a baseball game between teams from the Lowell Ad club and the Kimball System; half-fare on all the park attractions and dancing in the pavilion; a big, bounteous dinner served at 6 p. m. to be followed by general dancing.

Ad club tickets will admit holders to dance the entire evening, till 1 a. m., with exclusive dancing in the pavilion to music by the famous Isham Jones orchestra of Chicago, until 9 p. m. The public will be admitted after 9 p. m. The curtain will fall on the program at 1 o'clock after 12 or 13 hours of good solid enjoyment and the event are limited to 1000. A big rush for

will be well long remembered by those attending.

The big feature in connection with the outing this year is the coming of the famous Isham Jones orchestra of College Inn, Chicago, a musical organization that is known extensively in the country, and which is fast winning its way into national repute. There are 10 musicians in the orchestra and each one is considered among the best artists of the country. This orchestra will furnish music throughout the evening.

The general committee handling this year's outing is looking after all arrangements and nothing will be overlooked to give those attending the time of their "young" or "old" lives. The experience which its members gained with the initial outing last summer has only served to raise their enthusiasm to greater heights, and all look forward to one of the biggest and best outings ever arranged by any organization in Lowell. The tickets are selling rapidly for the outing and the car back on the rails and towed it to the Lowell car house.

TARIFF PROBE ON CERTAIN ITEMS

WASHINGTON, July 6.—The tariff commission has ordered an investigation into production costs and other data bearing on import duties on logs of fir, spruce, cedar or western hemlock, and announced today it had set August 8 as the date for a preliminary hearing on the rates.

HALIFAX, N. S., July 6.—The United States car patrol cutters Tampa and Modoc are returning from the north Atlantic after their season's work. The Tampa arrived here today, and will leave tomorrow for Boston. The Modoc is on her way to Maine waters.

German government is about to dis-
allow strikes and all active resistance in the Ruhr, Berlin advises say.

CAR LEAVES TRACK

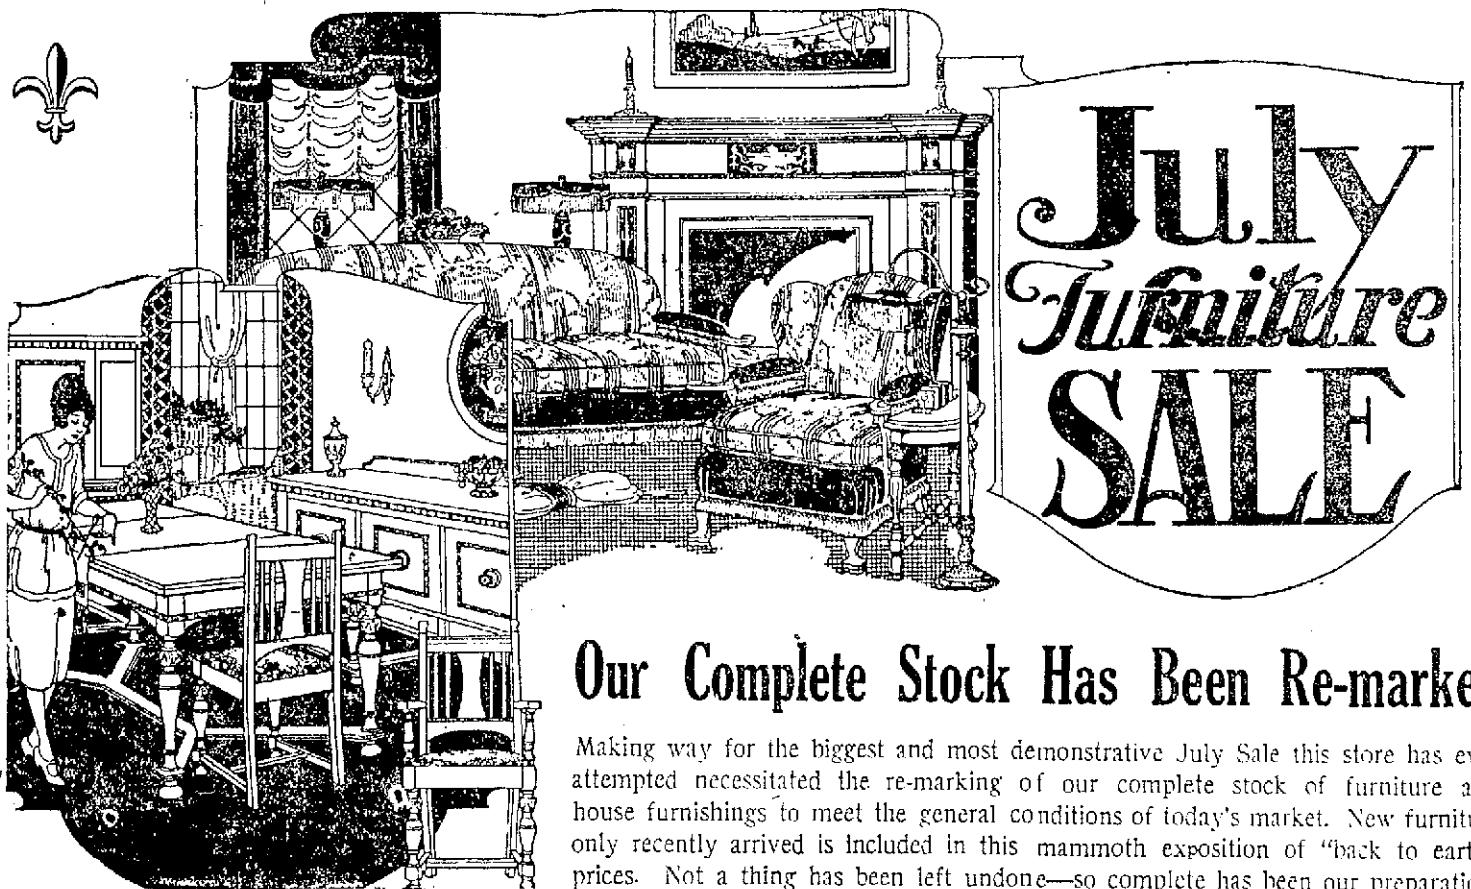

AND SMASHES POLE

An electric car driven by Operator James Evans left the tracks at Perry's corner, North Billerica, shortly after midnight last night and smashed into one of the company's poles, breaking it off at the base. The front end of the car was badly damaged, but the operator was unhurt. There were no passengers on the car at the time. As it was the last car for the night, traffic was not delayed while the wrecker put the car back on the rails and towed it to the Lowell car house.

ICE PATROL BOATS HOME FROM WORK

HALIFAX, N. S., July 6.—The United States car patrol cutters Tampa and Modoc are returning from the north Atlantic after their season's work.

The Tampa arrived here today, and will leave tomorrow for Boston. The Modoc is on her way to Maine waters.

Our Complete Stock Has Been Re-marked

Making way for the biggest and most demonstrative July Sale this store has ever attempted necessitated the re-marking of our complete stock of furniture and house furnishings to meet the general conditions of today's market. New furniture only recently arrived is included in this mammoth exposition of "back to earth" prices. Not a thing has been left undone—so complete has been our preparation.

Come prepared to witness the biggest values and the fastest selling you've seen in years. For the homes to be newly furnished or those to be refurnished, whether the type of furnishing be simplicity itself or the more extreme, preparations have been made and our display will bear out that what ever the need may be, the furniture is here that will fill it—and do so satisfactorily.

Unusual Prices In This July Sale

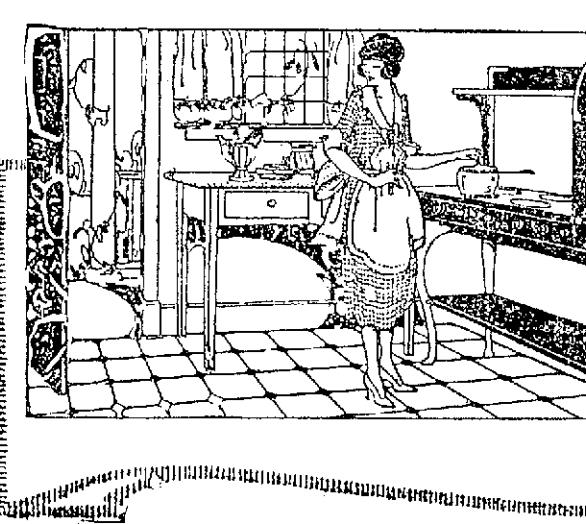

Low prices mean unusual values only when the quality that goes with them is worthy. Some merchandise is never good value at any price, the same may be said for furniture. The remarkable feature of this July Sale is that the very lowest prices have been put upon furniture of highest standards. And too, our comprehensive assortment of good furniture includes seasonable merchandise—many suites and dainty odd pieces in summer furniture—breakfast sets of six pieces—appropriate odd pieces for all nooks and corners of the home. Our July Sale is now in full sway—don't miss attending.

The very choicest in dining room, living room, bedroom furniture, hangings and drapes of all kinds and descriptions, floor coverings, furnishings for the kitchen—all this in very large assortments is now assembled—our stock is most complete and priced for quick disposal. Not only is it advisable that you attend but to do so early is most advisable when assortments are unbroken.

It's Practising Economy To Buy in this July Sale

As has been the custom at this store each year during the month of July special inducements are offered the public in the way of extraordinary values in order that our stocks may be cut down to make room for newly arriving furniture. Although buying this season exceeded our expectations we feel that it is consistent upon our part to hold our Annual July Sale this year and so measures have been taken to make this year's event the biggest ever known.

EXPERIMENTS SUCCESS

Tests Show Artificial Lumber Gives Promise of Structural Utility

WASHINGTON, July 6.—Experiments in the making of "artificial" lumber are arousing increased interest among government officials and leaders in the lumber industry.

Although none of the product has been marketed, officials of the National Manufacturers Association declare that tests already made of a synthetic composition produced by Minnesota lumber interests show it possesses many qualities making it available for structural purposes.

The experiments are based on somewhat the same principle as that employed in the manufacture of paper from wood pulp. In the process not only the trunks and branches of young trees, but the leaves and smaller parts as well are ground up and mixed with

other substances, virtually eliminating waste. The resulting compound is capable of being moulded into sizes and shapes of almost any description needed in building.

Officials of the Lumber Manufacturers Association declare that if a practical method of this sort can be perfected, the result may be to revolutionize the entire lumber industry. Aside from utilizing the present great waste in converting trees into usable lumber, they say, it presents a solution to the manufacturer's problem of finding sufficient material in the country's rapidly diminishing timber resources.

From the time the standing tree is turned by the sawmill into planks and boards and applied in construction, from 60 to 65 per cent has been wasted. This includes stumps, chips, bark and branches, plank and log trimmings and a huge amount of sawdust.

The new method will use all of this. Already \$750,000 have been spent in experimental work in this direction by the Weyerhaeuser lumber interests in Minnesota. Their experiments are said to have been undertaken largely because one of the chief obstacles encountered by lumber manufacturers is the competition of paper manufacturers, who can use young trees unsuitable for lumber purposes. This is especially important in the Lake states, where pulp mills so compete with sawmills as to make it practically certain that very little saw timber will be grown commercially under present conditions. Timber owners find that in from 15 to 20 years they can grow crops of spruce that will be suitable for the pulp and paper mills, whereas it would take from 50 to 100 years to grow a crop that would meet the requirements of the lumbermen.

According to the manufacturers' association, tests have shown the artificial lumber to have a satisfactory tensile strength and to be capable of being sawed, planed and nailed, so that the product lacks only the charm of the grain effects of natural wood. Officials of the forestry service, while declaring they had not yet been assured the strength of the artificial boards equals that of the natural ones, believe they would be useful for many purposes. One of their strong points, it is said at the forestry service, is their waterproof qualities and insulation against heat and cold.

"Yes! We Have No Bananas" This expression needs no introduction—it's the name of a popular song which features it is positively irresistible—especially if you bear Furman and Nash put across on a Columbia record with their ludicrous spontaneity.

"Don't We Carry On" is on the other side—so silly that you'll play it twice.

THEY LEAD CATHOLIC EDUCATORS

Somber habits of the different religious orders and scarlet robes of bishops and monsignori presented quite a color contrast at the Catholic Educational Association's annual meeting in Cleveland, O. More than 1000 Catholic educators gathered to study their problems. Here are four of their leaders. Left to right: Msgr. Francis T. Moran, Cleveland; Msgr. F. W. Howard, bishop-elect of Covington, Ky., in the top row, and Msgr. John B. Peterson, Boston, rector of Brighton seminary, and Brother John Waldron, Kirwood, Mo., inspector of schools, western province, Society of Mary, bottom row.

BLOODLESS DUEL

MACIEL TO TRY

RUMOR DISPELLED

CHANNEL SWIM

WAWSAW, July 6.—(By the Associated Press).—Rumors of a bloodless duel between Marshal Joseph Pilsudski and Minister of War Szapiecki, circulated here yesterday, but were denied today. President Wodzickowski is known to have taken a hand in the differences between the two men, after Szapiecki had been appointed, but the result of his intervention was not announced. However, the president immediately accepted Marshal Pilsudski's resignation as chief of the war council.

DOVER, England, July 6.—Reme Maciel, the Argentine swimmer, accompanied by his trainer in a boat, swam two miles against a heavy channel tidal this morning. He was able to make good time. Maciel expects to make his first attempt across the channel about Aug. 1, which will enable him to precede Charley tooth and Henry Sullivan, the Americans, who are expected to arrive here about the end of this month.

WOMAN MAKES RECORD

Mrs. Horchem Establishes World's Altitude Mark for Women Aviators

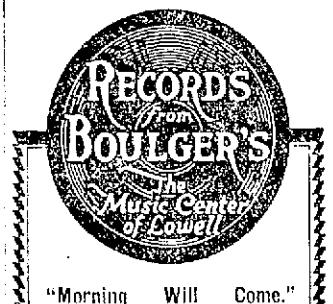

ST. LOUIS, July 6.—Mrs. Bertha Dale Horchem, aviator of Bismarck, Kas., set the world's altitude record for women when she ascended 16,000 feet at St. Louis yesterday. The previous record, 15,000 feet, was made by a French woman a month ago. Mrs. Horchem had to be assisted from the plane after she descended, her hands and feet being frost bitten. The flight was offical, being conducted under the rules of the National Aeronautic Association.

REDUCTION IN HOURS

Promised by Pres. Harding in Steel Trade When Labor is Available

TAMPA, Wash., July 6.—An outstanding significance in the address here yesterday by President Harding was the first definite word of the death-bell of the 12-hour day in the steel industry.

The president told of receiving a joint communication from leading steel manufacturers regarding a shorter day when the labor necessary becomes available.

ULL COMES IN RADIO PROGRESS AND INTEREST

After the first spurt in radio development, the science seems to have settled down to a matter of distance and hook-ups.

Yet, there is more to be done to improve present apparatus and perfect the science than has been accomplished so far.

The full in the process of development, like the quiet after a storm, does not mean, however, that scientists are resting after their first successes. On the contrary, more research work is being done nowadays than ever before.

But this is the quiet, plodding kind of work which refining its secret until it has accomplished something. There, the broadcast center is divided into geographic areas and a station provided for each. When the scientists are ready to announce their next developments, it is government control.

will be like another wave in the advancement of radio.

Meantime, radio fans are getting their fill of hook-ups and chances for their receiving and transmitting sets, in order to gain what seems to be the greatest desire nowadays—distance.

Broadcasting stations pride themselves in the distance and areas they cover with their concerns, and amateurs vie with one another in attempts to cross the Atlantic on low wave lengths. It is a general race for distance records.

Yet, ultimately, distance will have little significance in radio transmission. Broadcasters will end their race for the farthest receiver and devote more attention to the quality of their programs. For broadcasting eventually will have to be systematized and even centralized to bring out the best that is in it.

Broadcasting stations in England do not try to seek the most distant receiver possible. There, the broadcast center is divided into geographic areas and a station provided for each. And all stations are under centralized government control.

In this country, the plan is to establish a central broadcasting station from which concerts would go out to auxiliary stations in important centers. Thus one good program can be heard at the same time throughout the country.

SPARK STILL HOLDS ON

Spark transmitters are still holding out for dear life against the invasion of the more efficient C. W. sets. At present about 10 or 11 per cent of the amateur transmitting sets are still spark, but this percentage is waning gradually.

DISTANCE RECORDS

The latest long distance records for amateurs and broadcasting stations were these: 10,000 miles to Invergall, New Zealand, from station WHAZ at Troy, N. Y.; 11,000 miles to a ship near Ceylon, from E. W. Rouse, station 51M, at Galveston, Tex.

RECEIVING IN EUROPE

Few residents of Germany can afford to own a receiving set, because it costs about \$120 for a license. In France, the cost is 10 francs, and the radio fan has to promise to keep secret all intercepted messages and to disconnect his set whenever the government advisor is.

Delicious Iced-Tea Without Boiling Water!

A marvelous discovery made possible by TAO TEA BALLS. No Boiling or Heating Water. No Waste of Ice. No Waste of Tea. The Simplest Method Ever Devised.

Just drop a TAO TEA BALL into a teapot containing four cups of cold water (not ice-water) after breakfast—by lunch time you will have delicious amber-colored tea, clear, sparkling, fragrant. Serve in glasses with lemon and powdered sugar to suit your taste. Frost with a clip of ice.

Slowly the cold water draws out the very essence of the flavor of the Flowery

9:45 P. M.—"Sports," by William J. Sicomin.

9:45 P. M.—"Radio Revue," a musical revue written especially for the radio by Art Conner.

Eat Bran
—and never know it

Bran is the hull of the wheat kernel. It contains no nourishment, your system cannot digest it—so it sweeps right through your digestive tract and keeps you regulated.

Bran is wonderful—everybody ought to put a certain amount of it into his system every day. But—

Why Eat the Hulls Alone?

Mapl-Flake is a *whole wheat* flake—with all of the bran left in, enough bran to be a natural, harmless laxative. In addition it has the delicious, tempting flavor of toasted wheat flakes and the nourishment of phosphorus, lime, iron, carbohydrates, and the life-giving, appetite-building vitamins which science has discovered in wheat.

\$1000 in Prizes for Jingles

Mapl-Flake is crisp, delicious. Better still—'tis most nutritious. Always ready, quick to serve. Good for blood, bone, muscle, nerve.

Rules of Contest

Write a jingle, win a prize. Tell us, if you can in four lines, how good Mapl-Flake is, and how good it is for you. First prize for the best jingle, \$250—165 prizes in all. Contest closes August 15, 1923. A box of Mapl-Flake will give you the inspiration. Send entries to the Contest Manager, Armour Grain Company, Chicago, Ill.

Eat More Wheat

JESS BARNES SCORES SECOND SHUTOUT IN SIX DAYS FOR THE BRAVES

SIX HOME RUNS FEATURE GAME IN WHICH CARDINALS TRIM QUAKERS, 16 TO 12

Roger Hornsby Connects for Two Circuit Drives and a Double—Jess Barnes Scores His Second Shut-Out in Six Days for Braves—Quinn Wins His Own Game for Red Sox

NEW YORK, July 6.—The St. Louis Nationals stopped off in Phila themselves from a very difficult position for a one game stand yesterday without permitting further scoring in that inning and kept up his good work through the game. Hornsby started with two homers and a double in four trips to the plate. Four other round trips were started out during the game, one by Mueller, the St. Louis centerfielder, and the other three by Philadelphia slick artists, Leach, Tierney and Wrightstone. There were seven two-baggers and one three-cushion hit. Thirty-two players took part in the game, and four pitchers were used by each team.

In Brooklyn the Braves blanked the Dodgers when Jess Barnes served his second shutout within six days, and Boston walked away with the game, 3 to 0. The play was tight throughout, Brooklyn using first Cadore on the mound, and then waiving him to the minors, while Detroit to four hits against Cleveland's 12.

Other teams in both leagues were the Braves' swallows. Harry climbed not scheduled.

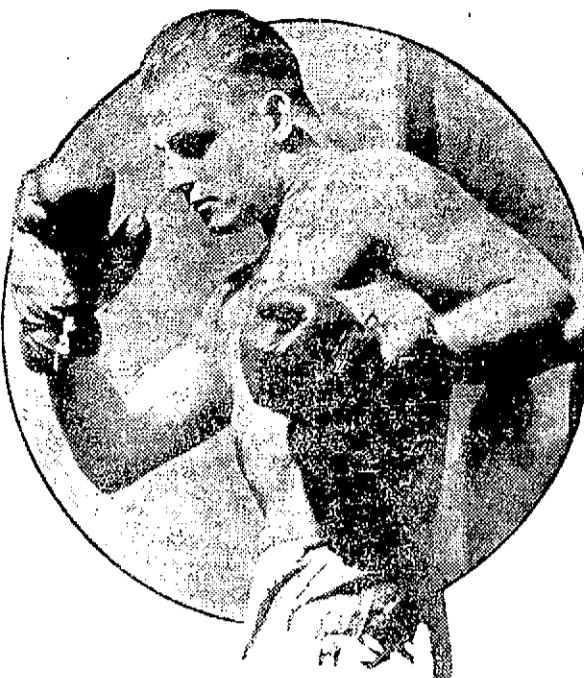

LACK OF PAYING PATRONAGE CAUSES LOWELL TWILIGHT LEAGUE TO DISBAND

The question as to whether or not Lowell's Twilight league should resume activities after the Fourth was definitely settled at a special meeting of the six managerial heads of night baseball teams in the city, who agreed to permanently suspend operations on the South common as far as the league competition was concerned. The reason is obvious to anyone having an inside knowledge of financial conditions in the game, played prior to the coming of the year, if not the sensible. In some of these contests, the participants received but a few cents for their evening's work, and this notwithstanding the fact that an average of 5000 fans viewed the games.

The disruption of the league will not come as a surprise to the majority of the fans. It was predicted in these columns a week ago when the managers met and refused to take action on a schedule for the second half of the season. No money was given as the reason, players camping out in the city with semi-professional organizations around Lowell where the remuneration was much more attractive, naturally refused to spend their evenings on the common when all they got was 50 cents. The fans saw some good baseball. Semipro teams were organized on a general rule the games were of high culture and the rivalry among the competing parties was intense. Yet fandom failed to show its appreciation and the logical outcome is disruption.

The Twilight league, for the present

Movie Star Is a He-Man With a Pair Of Active Mitts—So Have a Care!

REGINALD DENNY

BY JACK JUNGMEYER

HOLLYWOOD, July 6.—A cosmetics concern, which didn't savvy the character of Reginald Denny, recently herded him in an advertisement that he was the "Leather Pushers" pictures.

I happened to meet Denny for the first time a few hours after he had seen the ad and had fled a \$75,000 damage suit for this "unauthorized" liberty with his reputation.

And if Denny had been within hailing distance of the manufacturer, Universal Pictures would have had another leather poster episode free, for Ruggie was six feet of red-gumosity, whose fighting prowess has by no means been confined to the reel areas.

Which episode affords me an opening to correct some possible misconceptions of the actor-athlete—at least to warn other overzealous purveyors of cannot beauty who may yearn in exposing their wares with photos of "The Abysmal Brute."

Denny is the kind of fellow who believes that you don't have to wear leather trousers, chew tobacco and talk out of the corner of the mouth to be a he-man. With these reservations, he meets the specifications.

He holds several enviable box-fighting records in the British army.

During the war he was a Lieutenant in the Overseas Royal Flying Corps. He is an expert swimmer, planning at the moment to attempt the 21-mile swim from San Pedro to Catalina Island this summer.

Some years ago he was on the verge

of becoming a professional prizefighter. He can dance to the tune of any Hollywood queen, but he's pass up tennis, or duck shooting, trout fishing or sea cruising any time. He takes a keen delight in stripping the music off pretenders, drestes, swank and is easily amused at the antics of Hollywood's photo-peg louts.

There is a crook quality about Reginald Denny. It's in his modified English speech. In his walk and rare gestures, in his immaculate clothes. In his pointed observations on people, politics, picture playing and sports.

For years he's been trying to get away from "good looking" parts in which he has been cast on the stage and screen; he wants to do character roles. Born in England, son of William Henry Denny, prominent British actor of the '60s and '70s, he began his stage career in London at the age of six. His celluloid boy was four years ago in "Bringing Up Betty," followed by "33 East," "Money Mad" and then "The Leather Pushers," which gave him stardom.

There is an attractive Mrs. Reginald Denny, also a picture player, who did the part of the younger sister with him in "The Abysmal Brute." They have been married five years.

"She's the only one whose interest in my appearance concerns me," he said, "and I'm sure I don't have to wear a face pack to retain her respect."

Anyone else who wants to convey the impression that the most popular of Universal's stars is a flop?

He fights at 155 pounds.

Building a Pennant Team Is Hard Task

BY BILLY EVANS

Not many managers have been able to put together a club record of 100 wins.

The Federal League have never been able to return since their triumphant days of 1915-1920.

The Cuban World Series disappeared last summer, and the St. Louis Browns, the St. Louis Cardinals, the Chicago White Sox, the Cincinnati Reds, the Boston Red Sox, the Brooklyn Robins and the Philadelphia Athletics.

Moran attended to his own knitting, never saying a word.

The first thing the cities knew the Reds were on a winning streak, was

when the Indians were shown the date of their first victory.

And that was the present year with Patrick Moran whipping the Cincinnati Reds sleek on the pennant-winning track.

Moran's record is the best in the league.

The Pittsburgh Pirates have won but one pennant since 1903. The Cubans were the only ones to show the date of their first victory.

The Federal League, their first year, like the other managers, had some 1919 Reds fate and disappear.

While the 1922 Giants have not been beaten as yet, the Reds have been accepted as the pennant divisional champion.

The lack of opponents trailing the 1922 champions, along with the Pittsburgh team.

They're Sure Going.

The spirit of the Reds really is the

During the closing days of MAY the annual chorus in Cincinnati shouted for Moran's scalp. His previous success had not been repeated.

On opening home from the first easten, however, the Reds were in seventh place, just a few steps in front of the middle Phillips. Apparently the Reds were bound for the cellar and it was to be expected that at the time July 4 arrived, Fred McMillin would be elevated to the managerial seat.

Moran attended to his own knitting, never saying a word.

GARDNER A. A. HERE FOR TWO GAMES SATURDAY

C.M.A.C. will endeavor to break its long and consistent string of reverses in the Central Massachusetts Twilight baseball league at Textile campus tomorrow afternoon, in a double-header attraction with Gardner A. A. The visitors are credited with a narrow margin victory over the home players in the early season, conflicting but with the added strength in the box and the infield, Lowell has an even chance of getting into the victory column.

Al Kroog will appear on the slab and is expected to do dimly what he did without assistance, the bunt delivery in this section, will handle his delivery. The remainder of the lineup will be practically the same as in previous games. Gardner has a lineup of college and semi-pro players who have won a majority of their starts this season, although they are not at the head of the procession in the league. The first game will be called at 2:15 o'clock.

JEFFRIES CANNOT SERVE AS REFEREE

TRENTON, N. J. July 6.—Jim Jeffries, ex-world's heavyweight slug champion will not be permitted by the laws of this state to referee the Firpo-Willard contest at Boyle's Thirty Acres, July 1, State Comptroller Newton Bugsbee, New Jersey boxing commissioner, announced yesterday.

Jeffries is barred from being the third man in the ring by an amendment to the boxing act of 1922, which, Bugsbee explained, provides that a referee must have lived in the state three years before he is appointed to preside at a fight.

The commissioner's announcement was made at the close of a conference with Assistant Atty. Gen. McGee. The latter official held that Jeffries could not even referee the Firpo-Willard match as a temporary appointee.

BASEBALL FEATURE OF GIRLS' OUTING

As at the annual outing of St. Peter's Girls' club at Canobie Lake park July 4, a thrilling baseball game between the All-Stars and the Has-Beens was won by the latter by the score of 18 to 11. Laura Gendron and Mary Garry were the battery mates for the winners, while Dolores Ragan and Agnes Madden performed a like function for the losers.

The 100-yard dash was won by Dor-

HARRY WILLS MAY BE DEMPSEY'S NEXT OPPONENT IN RING SAYS JACK KEARNS

After He Finishes His Business in Shelby Kearns Will Leave for New York to Open Negotiations for a Match With Wills to Be Staged on Labor Day—Says Public Want Match

GREAT FALLS, Mont., July 6.—By the Associated Press—Harry Wills, the Negro heavyweight, probably will be Jack Dempsey's next opponent. Jack Kearns, manager of the heavyweight champion, said today, Kearns has lost six pounds in the past two weeks of training, tipping the scales yesterday at 210 after 11 rounds of fast working, two at shadow boxing and three rounds each with his trio of sparring partners. His present weight is eight pounds below the figure he scaled when he knocked out Floyd Johnson, two months ago.

The ex-champion declared he feels at the top of his form now. His foot work, judgment of distance and defensive skill appeared excellent yesterday, as he worked out with Buddy Jackson, negro heavyweight, and Joe White both of New York, and Chief Metcalf, a rangy Indian boxer from Hutchinson, Kan., not far from Wills' home town.

Firpo though in fighting trim at the start of his training at Long Branch, as a result of a trip to Cuba and Mexico, has not slackened his program of conditioning. He faces the griffes test of his rapid-climbing climb in Willard and his veteran trainer, Jimmy De Forrest, has devoted hours daily to improving the big South American's skill and generalship.

Yesterday, after a rest and private workout under De Forrest's direction, Firpo went four rounds each with Jack McAuliffe and Bill Tate, his sparring mates.

Both Training Hard

NEW YORK, July 6.—Jess Willard and Luis Angel Firpo, who will battle in a 12-round match at Boyle's Thirty Acres Thursday night, are close to each other. Queen, with Catherine Carney second. A relay race between two picked teams was won by Vera O'Brien, 100 yards. Eileen McNamee, Agnes Sharkey and Hazel Wilkinson. The walking race was won by Anna Hickes, first, Eila Mulligan, second, and Florence Rognier, third.

The following committee had charge of the outing: Eila McNamee, Susan Campbell, Agnes Madden, Helen Gethrie, Anna Lawler, Agnes Mellon.

Good Morning Mr. Salesman!

Do you buy your own tires—or charge them up to the firm in your expense account?

In either case you can show a substantial SAVING by equipping your car with Converse Tires.

The heavy cord carcass with reinforced side walls and rugged compression tread assures you of greater comfort, freedom from tire trouble and satisfactory service under the hardest usage.

15,000, yes 10,000 miles and MORE is nothing unusual with

Converse
COMPRESSION TREAD
Cord Tires

No Other Tire Has It

Converse Compression Tread Principle means added miles in every Converse Tire. When inflated the sidewalls expand, bringing tread downward and compressing it about 3%, squaring the tread with the wear-ing surface. Thus weight of your car increases this compression, giving more rubber where the wear comes.

BEST HEAVYWEIGHT CONTEST IN HISTORY, SAYS REFEREE DOUGHERTY

REFEREE DOUGHERTY SAYS BOTH FIGHTERS DESERVE PRAISE

Third Man in the Ring at Shelby Lauds Gibbons' Gameness—Challenger Put Up Most Wonderful Defence He Had Ever Seen—Also Says That Dempsey Has Much Improved as a Boxer

GLACIER PARK, Mont., July 6.—sure of refereeing a contest for the full in his boxing, declared James J. Dougherty, referee of the Dempsey-Gibbons bout at Shelby. Dougherty came here for a tour through Glacier Park and gave out a statement on the fight.

"Dempsey was in the best physical condition that I ever saw in an athlete," said Dougherty. "The reason he did not stop Gibbons was not the lack of him being a great fighter. It was because Gibbons put up the most wonderful defense I have ever seen.

"I want to say that Gibbons is the greatest man that I have had in a championship contest."

DEMPSEY HIT FEW LOW BLOWS

Gibbons Has Black and Blue Marks on His Groins From Punches

Once During Bout Gibbons Told Dempsey to Get His Punches Up

GLACIER PARK, Mont., July 6.—Richard T. Burke of New Orleans, who acted as official timekeeper for the Dempsey-Gibbons fight, made the statement that as the result of Dempsey's low body blows, Tom Gibbons bears on his groins black and blue marks as large as a man's hand.

Burke said, however, he did not believe that Dempsey intentionally gouged Gibbons.

The only word spoken by the combatants during the fight was uttered by Gibbons. Timukoper Burke said Gibbons was in one of the early rounds and Gibbons, while exchanging blows with Dempsey, addressed himself to his opponent saying, "Jack, get 'em up." He was then referring to three or four body blows struck him in the groin.

Gibbons besieged me not to fall the boxer, Burke said.

"I saw Gibbons this morning before I left Shelby for Glacier park. Burke went on and Tommy showed him black and blue marks on his groins. He immediately said, 'What, Tom, the press ought to write about this?' whereupon Gibbons besieged me not to fall the boxer, Burke said.

"I don't have to have any allies in this fight, Gibbons said."

NEW YORK WANTS A GIBBONS MATCH

SHELBY, Mont., July 6.—(By the Associated Press)—Eddie Kane, Tom Gibbons' manager, said he had received tentative offers from Tom O'Rourke, matchmaker, for a bout for Gibbons in the Polo Grounds, New York, August 2, against the first available opponent and for a return match with Chuck Wiggins of Indianapolis, whom Gibbons knocked out recently.

Gets Stage Offers

Several vaudeville offers also have been received and Kane declared Gibbons probably would go on the stage for a short period.

Another of the final chapters in the financial tangle connected with the title bout here was written today when an attachment was served on Jack Kearns by the manager of Ernie Sayles, Rochester, Minn., light heavyweight, who was knocked out by Jack MacDonald of Seattle. In the first preliminary Wednesday, Sayles claimed \$76 from Kearns, who said he would settle the bill which he declared he knew nothing about previously.

PRIZE FIGHTING IS DENOUNCED

WINONA LAKE, Ind., July 6.—(By the Associated Press)—The world court was considered today by the International Conference on Christian Citizenship, composed of approximately 2000 delegates from all sections of America and representatives of more than a score of foreign nations meeting here this week to consider the moral problems of the world.

The conference went on record yesterday as opposed to prize fighting, especially on the Fourth of July, characterizing the Jack Dempsey-Tom Gibbons fight last Wednesday at Shelby, Mont., as "a demoralizing pugilistic contest."

DEMPSEY STARTS ON A VACATION

Has Only a Few Marks as Result of Wednesday's Battle at Shelby

Kearns is Already Negotiating for Next Bout for the Title Holder

GREAT FALLS, Mont., July 6.—(By the Associated Press)—Jack Dempsey, world's heavyweight champion, last night started out on a few days' vacation after his confounding nine weeks' training period for his championship battle with Tommy Gibbons at Shelby Wednesday. The title holder, accompanied by his father, Jerry Laxatus, his faithful little nephew, Floyd Standard, a nephew, and wife, Frank, a Chicago detective, left Shelby for Salt Lake City to visit his mother, before proceeding to Los Angeles.

The champion expects to be in New York by Aug. 1, ready to resume training for a title match with either Harry Wills, the negro heavyweight, or the winner of the Luis Firpo-Jess Willard fight.

Kearns Angling for Bout

Dempsey understands that Jack Kearns, his manager, already has arranged negotiations for these bouts.

Dempsey was in such spirits, going

with the big crowd that came down to the station to see him off. His right eye was only slightly discolored and the cut over his left eye was starting to heal. The champion bore no other marks as a result of his 15 round battle.

The training camp was deserted yesterday. The 21-room old brick house resembled a deserted, haunted house. Bernard Dempsey, a brother of the champion, was the only occupant of the place. He shuffled from one room to another, picking up the odds and ends of training equipment.

Members of Dempsey's training staff scattered today. Harry Drake, British light heavyweight, who lost to Bud German in a preliminary at Shelby, wore a bandage over his right eye, which was swollen shut. Drake entered the ring with the eye bruised as a result of working with Dempsey.

Wells, the British underweight, is matched to box in Canada, while Jack Burke, British light heavyweight, plans to return home. George Godfrey, the 225 pound negro, whose fingers are still sore from the punching he received from Dempsey, intends to return to his home.

Dempsey Stood for \$1750

Still for \$1750 in damages alleged to have been done to property at Dempsey's camp was filed in circuit court yesterday by the owners of the property.

Owners contend that when the lease of the house was signed, many improvements made were to remain.

The complainant alleged that the two boxing rings, valued at \$750 had been removed and that plumbing installed in the house, valued at \$800, also had been taken out. The bill further says that a cowboy was allowed to fill with beer and water the two water tanks and the furniture and walls.

With the departure of the champion, Great Falls started the march back to normality with a better understanding of the term.

Several merchants lost heavily on novelty goods, which they had expected to sell before the fight. One merchant found his goods sold down with 3000 pairs of open glasses, which he had expected to sell to the occupants of the cheaper seats.

Kinks o the Links by "PRO"

When a player is in a hazard is there any penalty attached if he accidentally does something that improves the condition of the player in getting out of a hazard?

If a player improves existing conditions in a hazard, no consideration is given to the fact that the happening was possibly accidental. This would place a premium on doing some little thing that would help the play and then falling back on the time-worn excuse that it was accidental. In playing out a hazard a player must not move or touch anything in the hazard except that which is necessary as a result of the player taking a proper position to play out. The general principle of the rule that must be observed in a hazard is that the player must not do anything that tends to improve the conditions of play.

In stroke competition, Smith's ball lay above five feet from the cup. His opponent's ball was about 30 yards away. Smith's opponent requested that Smith lift his ball. Smith refused, saying that his opponent's ball was not more than 20 yards from the cup, which removed the right to force him to lift his ball. Should Smith have been compelled to lift his ball or play it as his opponent requested, or was he within his rights in refusing to do so?

This dispute is covered by the third section of Rule 13 relating to stroke completion. Smith should have lifted his ball or played it when requested to do so by his opponent. The rule states that the competitor whose ball is farther from the hole may have his ball moved nearer to the hole lifted or played at the option of the owner. Failure to do so should result in disqualification.

Bryan Sanctions Ship Liquor Seizures

WINONA LAKE, Ind., July 5.—(By the Associated Press)—Perfection of popular government is not possible without direct appeal to divine authority and guidance, speakers asserted at the international conference on Christian citizenship meeting here today. In an address yesterday, William Jennings Bryan said that if foreign nations would not observe the laws of the United States regarding ship liquor, the government would be justified under international law in confiscating the liquor and selling the ship. The act would be sanctioned by the piracy code he declared.

Negroes Ask For Federal Protection

NEW YORK, July 5.—Declaring the lives of R. R. Moton, president of Tuskegee institute and of negro surgeons at the United States Veterans' hospital at Tuskegee, Ala., had been threatened by masked mobs, the national association for the advancement of colored people today wired President Harding, urging that he send federal troops to protect them.

DR. J. HENRY FAGAN

103 CENTRAL ST., OPP. STRAND THEATRE

Graduate of Philadelphia Dental College. Graduate of Fritz School of Anatomy. Years of experience.

ANNOUNCES

THE OPENING of one of the most modern and up-to-date Dental offices in this city to be known as Dr. Fagan, the moderate price dentist. The office is located at 103 Central Street, opposite the Strand Theatre, and is one of the most handsomely equipped and brilliantly lighted dental parlors in this vicinity. No expense has been spared, thousands of dollars have been spent in opening this most up-to-date, sanitary dental parlor. With equipment of surpassing nature, Dr. Fagan will be in a position to render the very highest degree in efficiency in all branches of dentistry. Dr. J. Henry Fagan is of the newer generations of dentists who believe that you can't compete Twentieth Century with Nineteenth Century ideas. Dr. Fagan's aim is to give the people of Lowell and vicinity most modern sanitary dental service at most reasonable prices in an office equipped with practically every device known to modern dentistry.

EXPERT EXTRACTION

We never advise extraction unless it is absolutely necessary, but when we do extract, we do it without one bit of pain. We use two methods to obtain this result. One is by Sleep Vapor (nitrous oxide and oxygen), the surest and best method in the world; the other is by means of our own preparation, applied to the gums. Either way means no pain for you. We do not charge an exorbitant figure for this work, either. No charge for painless extraction when other work is done. All work guaranteed.

Don't feel that you are putting me to any trouble because you come in for advice, or come to look the office over. My methods put me in a class entirely by myself. Come and look over my establishment and you will be compelled to admit this. And now having talked to you thus, I invite you to call for a Free Examination. It will repay you, for a few minutes' time, to learn the truth about the condition of your teeth.

WOMAN JUMPS TO HER DEATH

Hundreds See Her Take Flop From Tenth Story Window

Had Quarreled With Her Brother-in-Law Before Leaving Home

PHILADELPHIA, July 5.—In sight of hundreds of persons, Miss Theresa Lazzari, of Camden, N. J., leaped from the 10th floor of the Wanamaker department store here today, and was instantly killed.

A quarrel with a brother-in-law before she left home today is assigned by the police for her act.

WILL INVITE FRENCH GENERAL TO LOWELL

General Gouraud, French hero, who has been surnamed the "ion of the Marne," and who recently landed in New York on six weeks' trip to this country, will be invited to come to Lowell by members of Lowell post, American Legion.

There is a movement now on foot among local legionnaires to send an invitation to the visiting general and the matter will be discussed at the next meeting of the legion, at which time it is expected a committee will be appointed to extend the invitation. General Gouraud is well and favorably known among many of the local World War veterans, a great many of whom served in his units on the battlefields of Flanders.

SMALL COUNTRIES' QUOTA EXHAUSTED

WASHINGTON, July 5.—The immigration quotas of Egypt, Turkey, Palestine, Syria, Albania, Africa and small countries classified as "other Europe" and "other Asia" have been exhausted for July, it was announced today at the immigration bureau and those of Greece and The Netherlands are going rapidly.

With a possibility of rebates here and there, through inadmissibility of certain of the aliens on other than quota grounds, some of the nationals of the countries whose quotas are exhausted, may yet be admitted, it was said.

AUSTRIA TO PAY UP IN FIFTY YEARS

MELBOURNE, July 5.—The Australian parliament has passed a bill providing for the redemption of the national debt in 50 years.

By this feat he was declared the champion by officials of the Motorcycles and Allied Trades association.

To Use Machine Gun on Oil Fire

CORONICA, Tex., July 5.—A machine gun operated by the field battery of the Texas National Guard will be used today to shoot off the casing on the burning Mitchell-Jones-Seney-Grandill oil well near here. Thereby it is hoped the streams of fire pouring from openings in the casing will shoot upward and lessen danger of igniting other producers in the vicinity. If the machine gun does not do the work, a French 75 millimeter gun firing a shell weighing about 15 pounds will be used.

Pres. Harding Sails For Alaska Today

ON BOARD PRESIDENT HARDING'S SPECIAL TRAIN, July 5. (By the Associated Press). President Harding approached the end of his transcontinental trip today and before night will set out definitely toward his principal goal—the territory of Ala-ka. The president planned to spend about five hours in Tacoma before sailing on the navy transport Henderson from that port. The program mapped out for the chief executive and his party in Tacoma provided for a public reception at a hotel and a visit to the United States Veterans' hospital. The Henderson is scheduled to sail at 2 o'clock with the first stop expected at Ketchikan, where the transport is due to arrive Sunday.

EVERETT TRUE

WELL, MR. SMITH, WE HAVE GONE OVER THIS THING, AND YOU AGREE TO DO SO AND SO IN CONSIDERATION OF THE MONEY I AM TO PAY. THE NEXT THING IN ORDER IS TO DRAW UP A CONTRACT COVERING THOSE POINTS, AND WHEN I COME BACK HERE TO YOUR OFFICE, WE CAN BOTH SIGN IT.

NO, MR. TRUE, NO CONTRACT. I'M WILLING, HOWEVER, TO PROCEED UNDER A VERBAL AGREEMENT.

ALL RIGHT, PROCEEDED TO FORGET IT!!! PICK THE VERBS OUT OF THAT!!!

NEA SERVICE

SUSTAINS RAILROAD

Judge Pierce in Supreme Court Allows Demurrer in Stock Transfer Suit

BOSTON, July 5.—A decision by Judge Pierce of the supreme court today sustained a demurrer of the New York, New Haven & Hartford Railroad Co. in a bill in equity brought by Edmund D. Codman to enjoin the company from exercising control of about 28 3-10 per cent. of the capital stock of the Boston & Maine Railroad Co. This is the block of stock which the trustees of the Boston Railroad Holding Co. by a decree of the federal court in New York issued on June 4, were ordered to deliver to the New Haven railroad, subject to the provisions of the statutes of Massachusetts. As an individual and as a trustee, Mr. Codman owns 768 shares of the Boston & Maine.

JUMPED FROM BALLOON

Pilot and Aid Leaped as Basket Touched Ground —Balloon Gets Away

INDIANAPOLIS, Ind., July 6. (By the Associated Press).—Roy F. Donaldson and P. A. Erlach, both of Springfield, Ill., pilot and aid, respectively, in the "City of Springfield," an entry in the national balloon race which started from here yesterday, were injured slightly this morning when they were forced to jump from their craft eight miles northeast of Bryan, Ohio. The balloon escaped. Mr. Donaldson telegraphed the Associated Press that he could not rip the panel out of the balloon to make a safe landing and both he and his aid determined to jump as the basket touched the ground. He added that the gigantic gas bag got away from them, along with their entire outfit, containing clothing, instruments and food. The landing was made at 6:12 o'clock this morning. Mr. Donaldson said.

THREW TORPEDO, DEATH RESULTS

MORRISON, Ill., July 5.—Ray Fredrickson of Lyons, Ill., was held in the Clinton county jail without bail today for the fatal injury of Harry Gaarde, 19, also of Lyons. The prisoner is charged with throwing a torpedo at the feet of Gaarde and a young woman companion yesterday. The exploding torpedo injured Gaarde so seriously that he died in a hospital this morning.

CHAMPION HILL CLIMBER

ROCHESTER, N. Y., July 5.—Gene Rose of Troy, N. Y., today held the title of national motorcycle hill climbing champion. He won the 81 cubic inch displacement event yesterday at Egypt, near here, climbing the hill in 15 and 25,400ths seconds.

By this feat he was declared the champion by officials of the Motorcycles and Allied Trades association.

OUR BOARDING HOUSE

OUT OUR WAY

TAKING A STRIKE VOTE

Papermakers in Holyoke Claim That a Majority Are in Favor

HOLYOKE, July 5.—Officers of Eagle Lodge of papermakers said today that fully 80 per cent of the members have thus far cast their ballots in the voting to determine whether the allied paper trades council shall by a strike enforce its demands upon the paper manufacturers for more wages and better working conditions. The voting ends tonight and it is said by union officials that the result will be overwhelmingly in favor of striking if necessary.

"The only hope for the fat man while the osteopathic physician is correcting his posture, his spinal curvature, his diet and toning up his circulation and nerves, is the corset," he asserted.

"I read an advertisement for Cuticura Soap and Ointment and sent for a free sample. It helped me so I purchased more, and after using three cakes of Cuticura Soap together with the Cuticura Ointment, I was completely healed." (Signed) Miss Lillian Pimental, 37 Valley St., Fall River, Mass., Jan. 25, 1923.

Make Cuticura Soap, Ointment and Talcum your daily toilet preparations and see your skin improve.

Sample Free by Mail. Address: "Cuticura Soap, Talcum and Ointment," 11 Main St., Fall River, Mass. Sold every where. Soap, Ointment and Talcum. Cuticura Soapshaves without mug.

ALL FAT MEN ARE URGED BY DOCTOR TO WEAR CORSETS

NEW YORK, July 5.—Men really should wear corsets because they lift heavy loads, Dr. F. F. Millard of Toronto today told the American Osteopathic association at its annual convention.

"The only hope for the fat man while the osteopathic physician is correcting his posture, his spinal curvature, his diet and toning up his circulation and nerves, is the corset," he asserted.

LOVE LETTERS LEAD TO GIRL'S ARREST

MOUNT VERNON, N. Y., July 5.—Miss Ruby Jackson, arrested in Waterbury, Conn., whence she was traced by love letters, today pleaded guilty to stealing dresses, jewels and cash amounting to several thousand dollars from the home of Joseph Hale, where she had been employed as a maid. She was held without bail for the grand jury after she had returned all the loot except a \$750 ring.

IRENE REFUSES TO DISCUSS DIVORCE

PARIS, July 5.—(By the Associated Press).—While the court records show that Irene Castle Tremain has started divorce proceedings against Captain Robert Tremain, whom she married in May, 1919, she refused today either to confirm or deny that she would proceed with the case. There were rumors of a reconciliation.

Mrs. C. H. Sabin (top) has been named as the New York member of the new women's advisory committee of the national republican organization. Mrs. Harriet E. Warburton vice-chairman of the Pennsylvania republican state committee has been appointed an associate member of the republican national committee.

Jack Daw's Adventures. Chapter 17

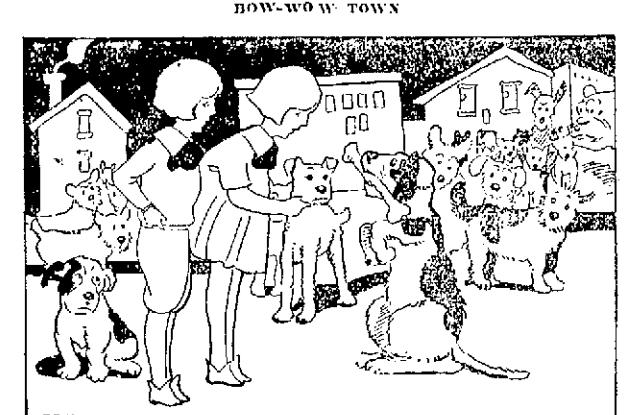

"My, but that was a narrow escape," shouted Jack. "Yes," replied Trixie, "and you are not going to have any more, if you will do as I say." Then she told Jack to hop into Hoppy's arms and the pet kangaroo would carry him to where her father's bow and arrow were. Jack hopped in, and away he went.

After many hops through the woods the kangaroo set Jack down and he was much surprised to find Trixie and Cucumber waiting for him. "Here is the bow and arrow," shouted Trixie, "but before we shoot it I want to rest. I've had a long run." So Cucumber took the bow and made a swing for Trixie to sit in.

Jack was amused to see how Cucumber swung the string part of the bow over a limb, and he was glad to join Trixie in the swing when she invited him to. Then Trixie explained that Jack must shortly shoot the arrow straight into the forest. "Then we'll follow it and see where it goes," said she. (Continued.)

"PERHAPS THIS IS IT," SAID A THIRD DOGGIE

The Choo-Choo Express stopped suddenly. "Bow-Wow Town," called Master Punch, the conductor, in a loud voice. "There's no use getting off here to look for Ruby Joan, my lost rag doll," said Nancy, "because she hates dogs."

Mister Punch heard her. "Why I should think it would be the very place," said he, "because any dog may have picked her up and run off with her."

"That's so," remarked Nick. "Come on, Nancy, we'd better look."

So they got off the funny little train. Nancy put her fingers in her ears and made a face. "Oh, isn't it awful?" she yelled. "I never heard so much noise in my life."

It was tense, for every kind of doggie in the world appeared to be there and they were all barking a welcome to the strangers.

But bye and bye it became quiet and Nick asked the nearest one if anyone had seen a rag doll.

POSSIBILITY THAT AT LEAST ONE FOREIGN POWER MAY ACCEPT PLAN OF SEC. HUGHES

It Became Known Today That Conversations Have Been Going on Regarding Plan for Treaty Covering Ship Liquor Stores—State Department, However, Refuses Any Information on the Subject at This Time

WASHINGTON, July 6.—The possibility that powers other than Great Britain might look favorably on Secretary Hughes' plan for a treaty covering ship liquor stores and rum smuggling suggested itself today when it became known that there had been informal conversations with representatives of at least one of the other powers which received the state department's proposal.

Today at the state department brought no information on the point, nor was there anything to indicate what nation had intimated a favorable attitude toward the Hughes plan. It appeared certain, however, that there had been at least an indefinite suggestion that the plan might be found acceptable by the power concerned.

The treaty plan called for separate

negotiations with each of the maritime powers. Should some other power accept the proposal to extend the right of search for contraband up to the 12-mile limit there would be nothing to prevent the conclusion of a two-party treaty on the subject. Under such a treaty when it had been ratified, merchant ships of the foreign signatory would move in American territorial waters unmolested, and in addition could bring in liquor to be shipped under bond over American railroads for re shipment to foreign destinations.

The state department still is without official word as to the British attitude, but press reports of the debates in parliament have indicated a fear that the American plan amounts to an attack on the accepted doctrine of international law which fixes a three-mile territorial jurisdiction.

The treaty plan called for separate

RETAINS TITLE AS CHAMPION

Suzanne Lenglen of France Wins Final Match on Wimbleton Courts

Defeated Miss McKane, First

Ranking English Woman, in Straight Sets

WIMBLETON, July 6. (By the Associated Press)—Suzanne Lenglen of France retained her title as woman lawn tennis champion of the world by defeating Miss Kathleen McKane, first ranking English woman, in the finals of the Wimbleton tournament today. The French star won in straight sets at 6-2, 6-2.

Mme. Lenglen thus won the title for the fifth consecutive year. She cannot add to her string, as the present tournament is the last at which the world titles in the various divisions of the grass court game are to be awarded.

Suzanne, who by superior striking and court strategy, Miss McKane chose to play a back court game and was therefore beaten from the outset, as Mme. Lenglen was deadly on the long balls. The four games taken by the English woman during the match were the result of her suddenly in coming to the net on several occasions, combined with a few wild shots on the part of her opponent.

Suzanne Lenglen and Elizabeth Ryan entered the finals, in the women's doubles by defeating Kathleen and Mrs. Lambert Chambers in a dull match, the score of which was 6-1, 6-2.

The victors will play the Misses Austin and Colyer in the finals.

WORCESTER MAYOR PRINCIPAL SPEAKER

The much-planned union meeting of all the Irish societies of Lowell will be held in A.O.H. hall, Middle street, this evening. Mayor John J. Donovan will preside and introduce the principal speaker, Mayor Peter F. Sullivan of Worcester.

James J. McManamon, president of the Central council, has general charge of tonight's affairs, which will be in the nature of a farewell meeting as on July 15, the A.O.H. will vacate its present premises in Middle street and remove to new quarters in the Grosvenor building in Kearney square.

Flat Refusal of Demands of Coal Miners For Increase in Wages Will Be Made, It is Said

COURT CALLS SOME LAKEVIEW CAMPS "ABOMINATIONS" AND WILL ASK FOR STATE AID UNLESS RECTIFIED

"I have no doubt that some of the camps at Lakeview are abominations," said Judge Fairight in the district court this morning in dealing with a woman and three men who were arrested in a camp at that resort yesterday on charges of drunkenness.

"Some of the camps," commented the judge, "are occupied by decent, respectable people, but others are abominations and unless local police clean them up, I shall be forced to call upon the state police for assistance."

This commentary on alleged conditions at Lowell's neighboring summer resort was brought about when Officer James P. Morrison and Dracut authorities testified that the defendants in this particular case were disturbing the peaceful inhabitants of the vicinity over the Fourth of July period.

The woman in the case, Mary St. Pierre, gave her address as Worthen street, Lowell. She admitted she is married and that her husband is now in Salem. She denied that she was drunk, although she did have a few drinks, she said. The court found her guilty and with the emphatic declaration that "this sort of thing has got to stop," ordered her committed to the house of correction, suspended for a year.

UNDERWOOD SCORES ADMINISTRATION FOR LETHARGY IN RESPECT TO EUROPEAN AFFAIRS

Democratic Floor Leader of Senate, in Statement on His Return From Europe, Further Says That World Court Held Nothing That Could Help Solve the Economic or Financial Problem of Europe.

WASHINGTON, July 5.—Administration of business development in the United States of some definite type. He found more cause for war policy leading to the ultimate peace at present, he said, than existed at the time of the January, 1914, and pointed out that the financial and economic conditions were not improved by Senator Underwood's efforts abroad were reflected in the economic development of Europe, he would bring "disaster" to London in an attempt to bring his people to home.

"We should be looking up to democratic politics for the possibility of the members of Congress to make a broad and comprehensive policy, without a political will, to make a personal conviction, without anything that can be done for Europe, he would bring disaster to Europe."

It should be necessary, he thought, for the United States to take the lead in making the world a better place for the welfare of the world, and he said that the international court of justice held nothing that could either solve or direct the international and economic problems that are presenting the current prob-

Charged With Firing Upon Machine and Wounding Woman Tuesday

Driver of Machine Thought They Were Hold-up Men and Refused to Stop

MALONE, N. Y., July 6.—(UPI)—The driver of the Canadian truck has been arrested by the authorities of Malone, N. Y., for the night, and the subsequent arrest of three federal officials charged with assault. It is alleged that the drivers, who were taking for rum, a mineral, fired at the men, who were holding up the truck, and that the latter refused to stop at the command of the government agents.

The Malone chapter of commerce took official action in the matter when its board of directors voted a resolution requesting Senator Wardlow and Congressmen to use their influence for a thorough investigation of the independence of the American government.

The man also suggested that all government agents be required to sign a contract that they may not

be retained for hold-up men. Mr. Underwood said he thought the officials were more popular and that when they were held up, they stopped on the highway and were held up by the men, and that his daughter, who is 16, was held up yesterday. Soon after he had reached Malone and reported the hold-up to the police, the federal officers arrived. He further advised his government to prosecute them for the persons who held up his car.

He subsequently was arrested on suspicion and was held in bonds of \$500 each for a hearing on July 17. The men under arrest are prohibition enforcement Agent Robert D. Ansell, his assistant, Merchant Philip and Customs Officer Rupert Nisbett.

STATE BARS SALE OF SECURITIES

PROVIDENCE, July 5.—The state department of justice, in its suit today, barred the sale of the securities of the corporation in the state because they failed to file the required information on April 28. The law provides that such failure shall constitute prima facie evidence that the sale of the securities would result in fraud.

HUNTINGTON, W. Va., July 6.—That the American Legion, which is the largest organization in the country, has been instrumental in the construction of a new building, was announced today by W. H. L. Johnson, Leg. 50, chairman.

GOMPERS SAYS IT'S ALL BLUFF

Refers to Gary's Promise
To Cut Steel Mills' Twelve-
Hour Day

Surprised That President
Harding Should Consider
it Worth While

WASHINGTON, July 6.—Promises made by Judge E. G. Gary and other heads of the steel industry to President Harding to eliminate the 12-hour day in steel mills at some future date were declared today by Samuel Gompers, president of American Federation of Labor, to be "littered with bluff and insincerity."

Referring to the letters on the subject made public yesterday by President Harding, Mr. Gompers expressed surprise that the president "should consider it worth giving to the public." "I advise steel workers not to expect too much as a result of the exchange of 'confidence' between the president and Judge Gary," Mr. Gompers statement said. "The president suggested to Mr. Gary that the 12-hour day might be abolished 'when there is a surplus of labor available,' and Mr. Gary puts those words in quotation marks in his response and agrees with the grace and tact of a born diplomat that of course it shall be as the president wishes."

"When there is a surplus of labor available" the judge doubtless thinks wages can be cut and he doubtless hopes that "surplus" may be hastened by wide open unemployment."

GARY MAKES STATEMENT

NEW YORK, July 6.—(By the Associated Press)—Entrance into the United States of labor supply from Mexico, the Philippines, Canada and a few European countries soon will make possible abolition of the 12-hour day in the steel industry, Elbert H. Gary, head of the United States Steel corporation, announced today.

Mr. Gary's announcement followed the action of President Harding in making public yesterday before sailing from Tacoma, for Alaska, correspondence possible between him and the American Iron & Steel Institute, in which directors of the Institute pledged themselves to abolish the 12-hour day when a sufficient labor supply was assured.

Mr. Gary declared the 12-hour day would be abolished within a reasonable length of time. As the supply of labor increases, he said, the long day gradually would be abolished, and he pointed out that the supply was not increased. He estimated that the change would require 50,000 additional employees and would increase the cost of finished steel products by 10 percent.

Decision to bring about a speedy reduction in the length of the working day, Mr. Gary asserted, had been influenced greatly by public sentiment in favor of such a step and by the president's declaration in its favor.

NEWARK WOMAN

TO HEAD C. D. OF A.

KANSAS CITY, Mo., July 6.—The Catholic Daughters of America closed a three days convention here last night with the election of Miss Mary C. Duffy, Newark, N. J., as supreme regent and Mrs. Elizabeth L. Ahern, New Haven, national treasurer.

DEATHS

SHEEHAN—David P. Sheehan, a life long resident of this city and a devout attendant of St. Peter's church, died this morning at his home, 174 Warren street, after brief illness. Deceased was a valued employee as a metal worker at the American Safety Tread Co. He is survived by his wife, Margaret Slattery Sheehan; five children, Thomas P., John H., Grace E., Daniel L. and Margaret M. Sheehan; three sisters, Mrs. C. L. Lawrence of Thurmond, West Virginia; Mrs. Helen Campbell of Hollywood, Cal., and Mrs. Margaret Flay of Lowell; two brothers, John P. and Thomas P. Sheehan.

GYETTE—Mrs. Mary E. Gyette, widow of Fred J. Gyette, died yesterday in the Lowell General hospital at 41 years. She had been a resident of Lowell for 40 years and was especially well known in Centralville, where she had resided for many years. She was an attendant of St. Michael's church. Besides her husband, she leaves one son, Alvin J. Gyette, of the city, and a daughter and son in Canada. The body was removed this afternoon to her home, 59 Billings street, by Funeral Director Joseph Albert.

MOTARD—Marie Jeanne Alice Motard, aged 41 years, 15 months and 10 days, daughter of Louis and Eliza (the blonde) Motard, died last evening at the home of her parents, Hamilton street, Dracut. Besides her parents, she leaves two brothers, Edith and Arthur Motard, all of Dracut.

LYNCH—Mrs. Margaret (Helen) Lynch, widow of James Lynch, and an old parishioner of St. Patrick's church died this morning at the Belmont street hospital. Deceased was a member of the Holy Trinity sodality connected with the church. Her body was taken to the charge of Undertakers James P. O'Donnell & Sons.

WICKERS—Mrs. Margaret (Helen) Wickers, widow of James O. Wickers, died Wednesday night at the home of her niece, Miss John Parr, 32 High street. Mrs. Wickers, aged 23 years, 4 months and 23 days.

ADAM—Leeda Adam, daughter of Joseph and Alice (Mormann) Adam, died this morning at the home of her parents, 12 Ward st., aged 25 days.

SENTENCED TO LIFE STOWAWAYS RESCUED

Providence Man to Pay Six Jump From Vessel in New
Penalty for Murder of
Girl in 1920

PROVIDENCE, R. I., July 6.—Rolf G. Adams of East Providence, was today sentenced by Judge Hahn in the superior court, to life imprisonment for the murder of Rose V. McKeena in the Barrington park against September 2, 1920. A charge against Adams of assault with intent to kill William J. Deligan, Miss McKeena's company, was not pressed by Attorney General Carpenter. Following his conviction he had been denied a new trial by the superior court and this action had been sustained by the supreme court.

FUNERALS

TARTAGLIA—The funeral of Mrs. Filomena Tartaglia took place Wednesday morning at the First Primitive Baptist Church, 12 Primitve Street. The funeral mass was celebrated at St. Mary's church, Collingswood, by the pastor, Rev. Michael C. Gilbride. The choir under the direction of Fred Cummings sang the Gregorian mass. The solo was sustained by Fred Cummings, who also was the organist. The band was from the First offerings. The boats were Fred Mandini, Dominic Ferrie, Frank Rogers, Fred Martin and Mathew Saccoccia. Burial was in the family lot in St. Patrick's cemetery in charge of Funeral Director James W. McKenna.

EATON—At Seattle, Wash., May 19, Perelvina Eaton, beloved husband of Eugene Kinnison-Eaton, father of Esther Joyce Eaton, son of Ella J. Eaton and the late Anna Kinnison, mother of Bertrand E. Wilkins and Inez M. Kinnison. Funeral services were held at the Calvary M. E. church, and interment was beside his father in Mt. Pleasant cemetery, Seattle. Littleton papers please copy.

BURNS—The funeral of George D. Burns took place from his home, 5 Livermore street, yesterday afternoon. The services were conducted by Rev. Richard Morris, pastor of the High Congregational church. The burial offerings were numerous. The bearers were Frank Ecclestone, Lawerence A. Jordan, John Buckley and Fred A. Lakin. Burial was in the family lot in the Edison cemetery. The funeral arrangements were in charge of Undertaker George W. Healey.

FERNANDEZ—The funeral of Mark E. Fernandez took place this afternoon at 20 Church street. Services were held at St. Anthony's church at 3 o'clock. Rev. Fr. Perry officiating. The burial took place in the family lot in St. Patrick's cemetery. The funeral arrangements were in charge of Undertaker Joseph Sadowski.

BOGDANOWICZ—The funeral of Anna Bogdanowicz, infant daughter of August and Anna Bogdanowicz, took place yesterday morning from the funeral parlor of Undertaker J. Sadowski at 7:30 o'clock. The burial took place in the family lot in St. Patrick's cemetery. The funeral arrangements were in charge of Undertaker Joseph Sadowski.

SULLIVAN—The funeral of Mrs. Catherine B. (Sweeney) Sullivan took place this morning at 3:30 o'clock from the home of her daughter, Mrs. Paul P. Martin, 21 Duran street. The corona proceeded to St. Michael's church where at 3 o'clock a requiem mass was celebrated by Rev. Alphonsus MacFadden, the sacristan, and the Rev. John J. Shaw, pastor. The choir under the direction of Miss Margaret Griffin rendered the Gregorian chant, the solos in the mass being sustained by Mrs. Margaret McElroy, the organist. The Rev. J. J. O'Donnell, the president of the organ, the bearers were Messrs. James O'Brien, Joseph Wall, Henry Healey, Edward Geary and Robert and John McCarthy. There were many floral offerings and spiritual bouquets. The burial was in the family lot in the cemetery of St. Michael's, where the funeral prayers were read by Rev. A. H. Malone. The funeral was under the direction of Undertakers James F. O'Donnell & Sons.

FUNERAL NOTICES

SHEEHAN—Died July 6, David P. Sheehan. Funeral will take place Monday morning at 8 o'clock from his home, 173 Warren street. High mass at 9 o'clock will be sung at St. Peter's church at 9 o'clock. Burial in St. Patrick's cemetery. Funeral arrangements in charge of Undertakers James F. O'Donnell & Sons.

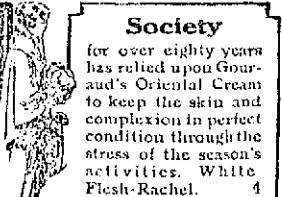

ROARKE—Died July 5, Mrs. Mary E. Roarke. Funeral will take place Saturday morning at 3 o'clock from her home, 568 Andover street. Solemn high mass of requiem will be sung at the Immaculate Conception church at 10 o'clock. Relatives and friends are invited to the home and services. Funeral and burial will be private. An obituary notice will be printed in St. Patrick's cemetery. The funeral arrangements are in charge of Undertakers M. H. McElroy & Sons.

LYNCH—Died July 6th in this city, Mrs. Margaret (Healy) Lynch, widow of James Lynch. The funeral will take place Saturday morning at 8 o'clock from the Chapel of Undertakers James F. O'Donnell & Sons. A funeral high mass will be sung at St. Michael's church at 9 o'clock. Friends are invited to attend. Burial will be in the family lot in St. Joseph's cemetery. Arrangements are in charge of Funeral Director Joseph Albert.

GYETTE—The funeral of Mrs. Mary Gyette (Gyette) Gyette will take place Saturday morning at 8 o'clock from her home, 59 Billings street. Solemn high funeral mass will be celebrated at St. Michael's church at 9 o'clock. Friends are invited to attend. Burial will be in the family lot in St. Joseph's cemetery. Arrangements are in charge of Funeral Director Joseph Albert.

O.M.I. CADETS

There will be a meeting of O.M.I. Cadets in Y.M.C.A. hall tonight at 8 o'clock. The meeting will mark the last opportunity to register in the organization.

POLICE RUNNING DOWN AUTHOR OF LETTER CALLING FOR STRIKE OF ALL COAL MINERS

SYDNEY, N. S., July 6.—Provincial police today were running down the author of a letter signed with the name of J. H. Smith, secretary of the United Miners Workers of America, to the coal miners throughout the country, who urged the miners to strike in protest against the importation of provincial police and federal troops into Sydney to intimidate the coal miners employed by the British Coal Corporation.

A copy of the letter, purporting the authorship of the miners against men, women and children on the miners and in their homes and attacking Premier MacKenzie as responsible for the strike, was turned over to the police by F. W. Gray, assistant to the vice-president of the British Empire corporation. The copy bears what purports to be a signature of MacKenzie. The letter dated is not clear. July 1.

This office has been informed that all the Waterford, Sydney, Mines and Glace Bay subdivisions are out on strike this morning as a protest against the importation of provincial police and federal troops into Sydney to intimidate the coal workers into continuing work at 50 cents an hour.

"On Sunday night last these provincial police in the most brutal manner, rode down the people at Whitney Pier, who were on the street, most of whom were coming from mining. Neither were any physical disabilities were brought against these miners."

"One old woman over 70 years of age was beaten into insensibility, and may die. A boy nine years old, was trampled under the horses' feet and had his breastbone crushed in. One woman, beaten over the head with a police club, gave premature birth to a child. The child is dead, and the woman's life despaired of. Men and women were beaten in their own homes."

"Against these miners the miners are up strike. The government of Nova Scotia is the guilty and responsible party for this. No miner or mine worker can remain at work while this government turns Sydney into a jail. To do so is to sink your manhood and allow Armstrong to prey upon them."

National Education Association to Begin Work Towards This Aim

SAN FRANCISCO, July 6.—Organization of the World Federation of Educational associations whose principal aim is to promote universal peace through educational methods was effected at a meeting of delegates from about 40 countries who are attending the National Education Association convention here. Augustus Thomas, state commissioner of education of Maine, was elected president.

Resolutions adopted provided for observance of May 18 as "Good Will Day" in schools of all lands.

Cooperation to improve the school systems of all countries.

Establishment of an international university whose chief function will be the study of inter-racial questions and the relations of education to these questions.

Establishment of a universal library service.

METAL WORKERS STRIKE

More Than 60,000 Quit Work at Noon Today in Berlin, Germany

BERLIN, July 6.—(By the Associated Press)—More than 60,000 of Berlin's 200,000 metal workers struck at noon today following a ballot last night by which the union rejected for the second time the agreement reached between representatives of the government and the employers.

ROW IN DAVIS STREET HOUSE ENDS IN COURT

As the result of a quarrel at 39 Davis street about 6:15 o'clock last night, John Smith and Walter Karkota were locked up in the police station charged with drunkenness and Frank Ponasuk, sent to the Lowell Corporation hospital suffering from scalp wounds apparently inflicted with some sharp instrument. The trio was taken into custody by Officer Patrick Connolly, who was attracted by loud noises. When he arrived he found the three men in a heap in the hallway. A sprinkling of blood gave evidence of a conflict and the other officer immediately summoned the patrol.

At the police station, Ponasuk was found to be suffering from a wound in the head. Dr. M. A. Tighe, city physician, was called and after a hurried examination, the man was ordered removed to the hospital. It was at first believed that he was suffering from a fracture of the skull, but an x-ray proved his injury to be of a minor nature and he will probably leave the hospital tomorrow.

In the district court this morning Smith and Karkota were released in \$200 each until next Tuesday.

BIG ATHLETIC MEET AT CAMP DEVENS ON 14TH

CAMP DEVENS, Ayer, July 6.—W. E. Jones, Jr., captain of Brown University track team, was in Camp Devens yesterday visiting the 12th Infantry. Before leaving he announced he would bring six men of his team to camp for the big athletic meet of July 14 when the regular army, the Massachusetts National Guard and the Reserve Officers' Training corps will meet in general track and field events.

On that date there should be in the neighborhood of 15,000 troops in camp. Some excellent performers should show up, particularly from the Reserve Officers' Training corps camp. The young men now in their third week of training will represent entries from many colleges throughout the New England states.

Leading college officials have been invited to lend their services in the management of the events on the field. Some of the unusual events will include steeple chase, Roman race, mule and horses, with running events for officers.

On July 14th there will be a

MORE MEN TURN TO ARMY SERVICE

AMATEUR BASEBALL

The campaign concluded by Sergeant T. J. Kimball, local army recruiting officer, on the South common on the fourth for men for the various units of the national defense service resulted in eight men signing up with the organized Reserves yesterday for a term of three years.

The eight who enlisted yesterday were Virilio Rapaport, 30 Summer st., who enlisted as a private in the 23rd F. A.; Warren D. Morrow, 113 High street, private; 412th Engineers; Murray C. Aspinwall, 26 Crescent street; private; headquarters group, 289th F. A.; Russell E. Garnett, 273 Appleton street, private; Q. M. C.; Francis W. Pohlin, 1 Quinby avenue, private; Q. M. C.; Edward E. Bentley, 192 Lincoln street, private; Q. M. C.; Eller W. Denner, 28 C street, Q. M. C.; and Michael Torres, 47 Summer street, private, 28th F. A.

Leading college officials have been invited to lend their services in the management of the events on the field. Some of the unusual events will include steeple chase, Roman race, mule and horses, with running events for officers.

The St. Joseph's Cadets and the St. Joes will compete on the South common next Sunday afternoon. The following St. Joseph's players are requested to report: Ladd, St. Hyacinth, P. H. Hennel, Frechette, Bessert, O'Brien, Mombour, Bernini, Nato and Bello.

SCHOOL COMMITTEE IN LONG SESSION, SPEND CONSIDERABLE TIME IN DISCUSSION

Controversy Over Resignation of High School Teacher—Board Elects Six New Kindergarten Instructors and Selects Teachers for Summer Review Classes—Committee Votes Not to Repair Edson School

At a prolonged meeting of the school committee last night, the weariness of routine business was broken here and there by snappy bits of repartee between the superintendent of schools and members of the school committee. The principal subject of discussion was the resignation of Miss Jennie C. Mohan, teacher of household arts in the high school. It was finally accepted with the proviso that Miss Mohan be granted either a private or public hearing with the high school master and superintendent of schools present.

The matter of repairing the Edson school also came up for action and after a lengthy discussion it was decided not to repair the school at the present time.

Other matters taken up were the granting of certificates, electing of a teacher for the Vocational school to succeed James T. Gearin, electing Kindergarten teachers and teachers for the summer elementary review class at the Green school and the summer high school review class, as well as numerous routine matters.

Meeting in Detail

The meeting was called to order at 8:40 p.m. with all members present. Following the reading of the minutes of the last meeting, Sup't. Molloy was instructed on motion of Mr. Mullin to insert into the minutes the fact that a letter of application from Philip J. Maguire as a summer instructor of shop-work was read.

Mr. Molloy read the resignations of Miss Jennie C. Mohan as teacher of household arts at the high school, reason not given, and James T. Gearin of the Vocational school, who has

resigned and Miss Mohan's from the high school. Mr. Gearin's resignation was accepted unanimously and a vote of thanks extended. A discussion followed concerning the working of the motion concerning Miss Mohan and Mr. Riley amended the motion to read "as a teacher in the city of Lowell," later withdrawing his amendment.

A roll call vote on Mr. Delaney's motion resulted in its acceptance.

Mr. Delaney immediately moved that Miss Mohan be granted a private or public hearing as she so desired, at which the master of the school and the superintendent of schools be present. This was voted with Mrs. Pearson, Mr. Mullin and Mr. Riley voting against it.

Certificates of the first, second and third grades were voted to numerous applicants.

A letter from Caroline A. Downey, president of the Teachers' organization, concerning the method by which the teachers are paid, was referred to the city treasurer.

A letter from Philip J. Maguire in which he refused to accept position as a summer shop-work instructor, as voted at the last meeting, was read. Before this was accepted Mr. Delaney took exception to any suggestion that in voting for Mr. Maguire he was influenced by racial or religious prejudices, as he said there had been such suggestion made. Mr. Riley moved the acceptance of Mr. Maguire's resignation and election of Mr. Gulesian and on a roll call Mr. Brum voted yes under protest. Mr. Delaney did not vote as there was no other recommendation. Mr. Mullin, Mrs. Pearson, Mr. Riley and the mayor voted yes and Dr. Slaughter refused to vote and Mr. Gulesian was elected.

A letter from the Church of All Nations asking for the loan of 150 pairs of dumbbells for the summer, was read and the request granted. This letter caused considerable merriment, and it was suggested that volunteers be called for.

A letter from Principal Thomas F. Fisher of the Vocational school was read. In this letter Mr. Fisher stated that, as the registration was to be lower next year, there would be no necessity of hiring Mr. Gaudette for next season. This matter was laid over until later on in the meeting.

Several other routine matters were handled at this time and Mr. Molloy reported on other matters that had been laid over from previous meetings. It was requested some time ago to have the state board of education conduct a survey in certain school districts and Mr. Molloy reported that the board will assist the Lowell school authorities in such a survey next fall if so desired. The superintendent was notified to call the attention of the city council to the school committee's request that land be seized near the Tenth street, Riverside and Butler schools so that portable schools may be erected to relieve housing conditions.

Mr. Molloy then brought up the matter of repairing the Edson school, and stated he believed the school should be repaired so that the upper as well as the lower portions of the school will be safe for use when school opens next September. Mr. Riley moved that the business agent be instructed to get in touch with the superintendent of lands and buildings relative to the proper repair of the school.

Dr. Slaughter called on Major Walter R. Joyes, safety instructor in the schools, to tell the board a little about the Edson school, particularly as to the cost of making necessary repairs. Major Joyes said he did not know and did not have any idea of how much repair to the school would cost, but believed it would be a large sum. Mr. Riley's motion was defeated on roll call with Mrs. Pearson, Mr. Riley and the mayor voting in favor of it.

Mr. Molloy then asked for authority to make the Butler school a junior high school. Mr. Riley moved the acceptance of this. Dr. Slaughter opposed opening a new junior high school until one real junior high was established in a building of its own and not mixed up with the elementary classes. A new building for junior high work would mean another two million dollar plant for the city said Mrs. Pearson, and stated it was too bad that the children in the Butler district cannot have the advantages of a junior high school.

Mr. Delaney asked that figures concerning the number of junior high students going into the sophomore class from the Washington school be given, as requested some time ago, and he inquired why, if parochial schools could send pupils to high school from the eighth grade, the public schools could not do so, and evinced a doubt as to whether there was not some special reason for pushing the junior high schools.

Mr. Molloy explained the way the junior high schools work out and stated that about 50 per cent of the Washington school class would enter high school as sophomores next September. Dr. Slaughter asked if it was not advisable to wait until a new school was built in the South End before organizing a junior high there but Mr. Molloy stated that the junior high could be changed into the new building whenever the school committee so desired.

Mr. Riley's move of acceptance was ratified with Mr. Delaney and Dr. Slaughter not voting.

Mr. Molloy then requested that the teachers who taught in the summer review classes at the Green school be elected for the same work this year, to work from 9 to 11:30 a.m. in the morning and to receive \$3.50 per session. The teachers doing this work last year were the Misses McArthy, Barrows, Mc-

Keon, Walsh, Glynn and Groves and chosen. Mr. Molloy stated that unless he could have regular teachers there he would not recommend the summer review school. Mr. Delaney remarked that when the teachers come for a raise that they always state they are overworked, but when there is an opportunity of taking on extra work for extra pay they are glad to do it. Mr. Mullin moved acceptance of Mr. Molloy's recommendation and this was unanimously done. Mr. Molloy then recommended Timothy Tully and Raymond Hobson for the position resigned by Mr. Gearin at the Vocational school and Mr. Tully was elected, with Mr. Mullin, Mrs. Pearson and Dr. Slaughter voting for Mr. Hobson.

The matter of doing away with Mr. Gaudette's services at the Vocational school was then taken off the table and as Mr. Fisher was present he was questioned concerning this matter. Mr. Gaudette was elected again subject to the conditions that he do the summer work called for by the state and that if the classes were not large enough to allow his being hired next September, he be given a leave of absence for one year.

Permanent Substitutes Named

Mr. Molloy then asked the school committee to give the number of permanent substitutes to be taken from the list that will be made up as a result of the examination held in June, as the law requires that the number be made before the result of the examination is known. As he already has a large number of substitutes, he requested that 16 or 20 at the most, be named from this year's list. This also caused considerable discussion and on the motion of Dr. Slaughter, 25 was the number decided upon. Mr. Brum talked considerably on a new method of handling the eligible by the formation of a cumulative list and Mr. Molloy seemed in favor of the suggestion. No action was taken on this, however.

Mr. Molloy then named 20 permanent substitutes to be awarded third grade certificates.

Mr. Delaney moved that Josephine Y. Grant, Arthur Lynch, Katherine V. Hennessey and Arthur Sullivan, whose names did not appear on the super-

CLEARANCE SALE

Mr. Molloy then named 16 candidates for the school committee. He suggested that Miss Provencher take her place from this year. He suggested that when the teachers come for a raise that they always state they are overworked, but when there is an opportunity of taking on extra work for extra pay they are glad to do it. Mr. Mullin moved acceptance of Mr. Molloy's recommendation and this was unanimously done. Mr. Molloy then recommended Timothy Tully and Raymond Hobson for the position resigned by Mr. Gearin at the Vocational school and Mr. Tully was elected, with Mr. Mullin, Mrs. Pearson and Dr. Slaughter voting for Mr. Hobson.

The matter of doing away with Mr. Gaudette's services at the Vocational school was then taken off the table and as Mr. Fisher was present he was questioned concerning this matter. Mr. Gaudette was elected again subject to the conditions that he do the summer work called for by the state and that if the classes were not large enough to allow his being hired next September, he be given a leave of absence for one year.

Permanent Substitutes Named

Mr. Molloy then asked the school committee to give the number of permanent substitutes to be taken from the list that will be made up as a result of the examination held in June, as the law requires that the number be made before the result of the examination is known. As he already has a large number of substitutes, he requested that 16 or 20 at the most, be named from this year's list. This also caused considerable discussion and on the motion of Dr. Slaughter, 25 was the number decided upon. Mr. Brum talked considerably on a new method of handling the eligible by the formation of a cumulative list and Mr. Molloy seemed in favor of the suggestion. No action was taken on this, however.

Mr. Molloy then named 20 permanent substitutes to be awarded third grade certificates.

Mr. Delaney moved that Josephine Y. Grant, Arthur Lynch, Katherine V. Hennessey and Arthur Sullivan, whose names did not appear on the super-

intendent's list, be awarded like certificates and he asked for action on the four at one vote. Mayor Donovan stated that as he had heard no complaints regarding the four that he would vote for them. Superintendent Molloy then said: "If my judgment that there were candidates who were in the race is correct, I am confident that they will be elected regardless of what I say."

Mr. Delaney jumped to his feet and demanded that Mr. Molloy retract. The superintendent refused and continued: "At the proper time I can furnish my reasons for my actions in recommending persons. What I believe is this, that if my judgment that there were candidates who were in the race is correct, I am confident that they will be elected regardless of what I say."

A BETTER SHAMPOO

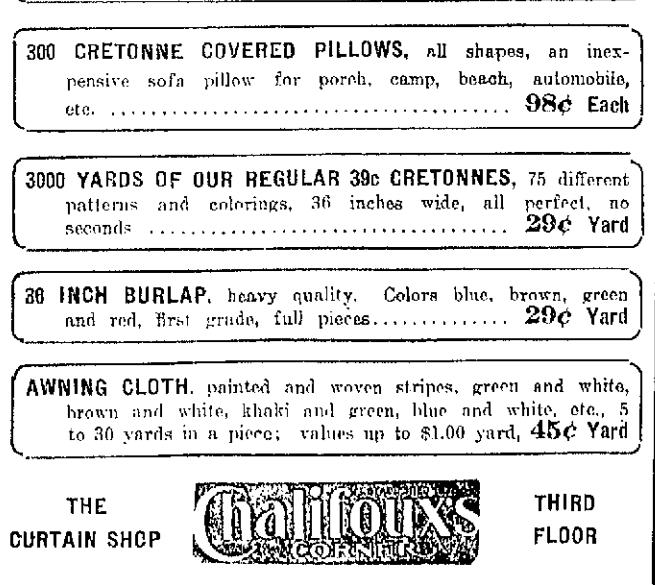

It contains considerably more cocoanut oil than the ordinary shampoos, making it not only a greater cleanser, but more economical as well.

GOURAUD'S ORIENTAL COCOANUT OIL SHAMPOO

thoroughly removes all dust, dirt and dandruff from the hair, leaving a clean, healthy scalp. The brilliant, wavy appearance obtained is due to the scientific proportioning of cocoanut oil, which glashes the hair and stimulates the roots in greater activity. Gouraud's Oriental Cocoanut Oil Shampoo is so far superior that the difference is noticeable at once.

The name "Gouraud" is backed by over 80 years of public confidence. Gouraud's Oriental Cream, Gouraud's Melon Oil, Gouraud's Oriental Cold Cream and Gouraud's Oriental Skin Cream are products which have won world-wide fame through exceptional merit.

APPROVES AIR ROUTES

England Plans to Be Connected by Air With All Her Possessions

LONDON, July 6.—The latest plan for commercial aviation in England is the establishment of a British Imperial Airship service which will connect England with all the British possessions by regular air routes. The first part of the scheme, which was originated by Commander G. D. Burney, R. A. F., provides for the establishment of a service of super-Zepplins to Australia. This has been placed before the air ministry, and there is every prospect of its adoption. The Burney scheme would immediately make England the foremost country in commercial aviation, and add considerably to the strength of the air force. The fact that England has not already a gigantic fleet of commercial planes is not due to lack of enthusiasm on the part of the commercial aviation companies. The English companies are now operating air lines to Paris and Holland, with the aid of subsidies from the government, are making a success of their projects.

The government has previously been reticent in accepting these plans, because of the huge sums involved and the small chance of such lines ever paying, but it is now expected that the air ministry will push the establishment of new routes.

Briefly the scheme provides for the establishment at once of a super-Zepplin service between London, India and Australia. The Zeppelins will carry 200 passengers, goods and mail, and make the trip to India in three and a half days and to Australia in a week. Such airships will have a speed of 80 miles an hour and will be capable of a non-stop flight of 12,000 miles, about half way around the earth. This would cut the travelling time between these places to less than one-fourth the present time.

If the scheme is approved the service will start in about eleven months with a bi-weekly service of passenger ships from London to Bombay and a little later to Perth, Australia. The ships will not use gasoline as fuel. They will be the first to use a non-inflammable mixture of kerosene and hydrogen, which has just been perfected by experiments under the direction of the air ministry.

The second stage of the empire service will be the establishment of a route to Canada, which will be followed by services to South Africa, Hong Kong and Singapore.

COMMON SENSE IN SAFETY EDUCATION

NEW HAVEN, July 6.—By the Associated Press.—Safety instruction in the public schools which teach children to avoid accidents in street traffic is as necessary a part of education as the three "R's" in this day of complete civilization. Dr. E. George Payne, professor of education at New York university, told the convention of school superintendents and principals of education in session at Yale university today.

Eighty thousand men, women and children are lost by accident in the United States during the last year, the speaker said. Of this number 45,000, a life every ten minutes, might have been saved by the general application of safety instruction in schools. "The reason for this needless sacrifice is that the development of modern civilization has gone so rapid our intelligence has not kept up with it. Civilization in safety instruction would require but simple changes in the present public school curriculums," Dr. Payne declared. "The method simply assumes that the teacher utilizes accident situations to give purpose to the school work. In writing articles instead of writing the familiar 'Now is the time for all good men to come to the aid of the party we can write 'In crossing the streets look first to the left and then to the right.'

"Instead of drawing sunsets and shady scenes, something within the experience of the child should be chosen, such as the right way and the wrong way of getting on and off street cars, and the right way of crossing streets."

"Instead of drawing sunsets and shady scenes, something within the experience of the child should be chosen, such as the right way and the wrong way of getting on and off street cars, and the right way of crossing streets."

QUEEN'S ESTATE IS SENT TO MUSEUM

HONOLULU, July 6.—The Bishop museum here will be the sole beneficiary of the remaining estate of the late Queen Liliuokalani, consisting now in the main of priceless relics, crown jewels, crests, silverware, decorations, and insignia of royalty, according to the trustees.

Queen Liliuokalani, last of the reigning monarchs of Hawaii, died in 1917. Four suits have been filed to break her will, the last having been withdrawn within the past month. Most of the persons to whom she made bequests, including John Atmoku Domine and Joseph Aea, her husband, and Prince Jonah Kuhio Kalanianaole, have died, and the articles bequeathed to them will be turned over to the Bishop museum. It will be six months before the estate can be distributed, according to the executor, Colonel C. P. Jauka, who was chamberlain to the queen.

The estate was valued at approx-

imately \$50,000 at her death, but many of her possessions, including Washington Place, her residence, have been sold and the proceeds placed in the Liliuokalani trust. The income from this trust goes toward the support of schools and hospitals. Washington Place is now the official residence of the governor of the territory.

WILL FIGHT PROHIBITION

PARIS, July 6.—The International conference of wine producing countries, which is closing session in this city, adopted a resolution

in the necessity of prohibiting the sale and draw up a set of rules to guide wine growing countries to uniform action in this regard.

ITALIANS GOING TO MEXICO

MEXICO CITY, July 6.—Italian emigrants are expected in large numbers to Mexico, and probably will settle in the states of Tamaulipas, Jalisco, Tlaxco and Nuevo Leon. Arrangements for their colonization have been made by agents of the Italian emigration service at Washington, the first batch

of arrivals probably will number 300.

DON'T USE CLIPPERS ON YOUR AIREDALES

NEW ORLEANS, July 6.—Vehement expostulations against the turning of Airedales into Irish terriers by New Orleans citizens come from Dr. W. J. Ratigan, veterinarian at the municipal zoo. The burden of the veterinarian's complaint is that mistakenly compassionate owners of Airedales are having their dogs clipped, with the erroneous idea that such treatment will cause less suffering from heat during the summer months.

It isn't so, says Dr. Ratigan, for the Airedale differs from other dogs in that it has two coats of hair instead of one. The outside coat is of wiry texture, while the inner one is soft and downy. Steel clippers, paring away at distinction, shear away the soft lower coat as well as the upper one, and, according to the veterinarian, rob the Airedale of its position as a pure specimen and transform it into an overgrown Irish terrier, for when

the lower coat is clipped, the distinguishing black saddle of the breed grows back as a pale yellow or white. Dr. Ratigan warns Airedale owners that their dogs should be plucked like a goose instead of clipped. The plucking removes the outer wiry hair and preserves the inner coat of distinguishing cream. The veterinarian neglected to say how many muzzles would be required to hold an Airedale's jaws during the plucking process.

TO DESTROY SNAKES WITH POISON GASES

SAN ANTONIO, Texas, July 6.—(By the Associated Press)—Poisonous gases will be used in the destruction of Texas rattlesnakes, according to present plans of the predatory animal bureau of the United States department of agriculture, assisted by the chemical warfare service of the Eighth Army Corps area. Major George M. Halloran, chemical warfare officer of

the corps, will begin experiments soon to determine which gas is the most effective in killing snakes.

Phosgene generally is considered by the bureau to be among the most fatal to animals with respiratory systems

and will be tried first. Other gases which may be used in the experiments are chlorine, which sears or burns.

The preliminary tests will be conducted at Fort Sam Houston, under the direction of Dr. W. J. Ratigan, who is planning to ascertain through the summer which gas is most deadly to the rattlesnake, and when cold weather comes and the reptiles have gone to dens and hibernating places, to experiment on them en masse," said an announcement.

MEXICAN INVOICE ON ALL PARCEL POST

MEXICO CITY, June 18.—(By the Associated Press)—All parcel shipments from foreign countries to Mexico must be accompanied by a commercial invoice, certified by the Mexican

consul nearest the point of shipment, according to a recent government order. For a shipment less than \$5 to \$60 the certification is free. From \$5 to \$60 the charge is \$2 and from \$50 upward the charge is \$2.

Shipments arriving without an invoice will result in a fine being imposed of 25 centavos for goods valued at less than 100 pesos, and 50 centavos for those valued at more than 100 pesos.

TO WOMEN WHO OVERDO

Thousands of American women in our homes are daily sacrificing their lives to duty. In order to keep the home neat and attractive, the children well dressed and tidy, women overdo. Soon a weakness or disfigurement is brought on and they suffer in silence, drifting along from bad to worse. For 40 years Lydia E. Pinkham's Vegetable Compound has proved a boon and a blessing to women in this condition, by restoring their systems to a normal healthy condition. Why don't you try it?—Adv.

RAILROADS WILL OPEN UP TWO MILLION ACRES OF FARM LAND IN CALIFORNIA

MEXICALI, Lower California, July 6—Bids for the construction of 150 miles of railroad through Lower California by the National Railways of Mexico were opened July 1, according to an announcement of Jose L. Lugo, military governor of the northern district of Lower California.

The construction of this railroad, government officials state, will make available more than 2,000,000 acres of farming lands particularly adapted to cotton, for which water can be obtained from the abundant flow of the Colorado river. A total of \$2,000,000 has been made available for the work, and an additional \$1,000,000 has been set aside in the treasury of the northern district of Lower California for future work.

This pioneering railroad construction, according to Mexican officials, is the biggest piece of constructive work since the United States built its Alaskan railroad. The conditions contended with are equal in hardships and opposition from nature, but at extremes in their variety. Cold, snows and the conquering of mountain fastnesses prevailed in the north. This southern operation involves combat with terrific heat in the summer season, death dealing sand storms, miserable chill in other portions of the year, and at all times absence of water or living things upon which to subsist, except at the shores of the gulf, where water fowl and shell fish abound.

In addition to opening up farming land, government officials state, the lands, government officials will make possible the development of a wonderful area of mineral lands, rich in surface showing of gold and silver, heretofore too isolated to permit of profit-

NO BOOSTERS NEEDED

Joyous Bucharest is the Fastest Growing City in All Europe

BUCHAREST, July 6—Bucharest is growing faster than any city in Europe. It is spreading out in all directions over the neighboring plains in an effort to house its population of a million, which is still growing. In 1913 the capital's population was only 335,000, which included 36,000 Austrians and Hungarians and 43,000 Jews.

Bucharest is the joy city of Europe. Love and laughter, song and wine, dancing and card-playing are as dear to the Romanian heart as to the peasant, who are a sturdy, homely, energetic lot, and constitute the backbone of the country and its chief hope for the future.

Although Bucharest prides itself on being the Paris of the Balkans, and French is spoken more than any other foreign tongue, there is a great desire on the part of the educated classes to learn English. American tutors are much in demand.

There are at present three newspapers printed in French, which is the court and society language, but it probably will not be long before a daily paper published in English will be established.

Queen Marie, who is an architect

and is ready for another visit at midnight. He dislikes going to bed. He loves his wine-jug and his cards. And he would die without his rum-coffee and his gossip about the latest scandal of the town.

The Calle Victorial, Bucharest's Fifth Avenue, is studded with pretty women in the latest Parisian fashions and jewels. Smart-looking army officers in high peaked leather boots and blue and gold uniforms strut along the plateau, shedding smiles on Romania's lovely femininity. Among these dashing young men and officers are seen many groups of gay men and women, with their numerous ornaments, some of the children without a stitch of clothing. For this is the land of Romany, of the race from which the gypsy fortune-tellers and vagabonds of the United States claim descent. And the gypsy believes that beauty undressed is adorned the most.

Romanian women, who admittedly are the most attractive and fascinating in the Balkans, owe their striking beauty to their strain of gypsy or Greek blood, their luscious eyes and their olive complexions. They are

buoyant and vivacious, romantic and pleasure-loving.

Both sexes in Romania use perfume, rouge and cosmetics in profusion. The economic business is one of the most profitable in Romania. The Romanian men are tall, handsome and dark, but are inclined to be effeminate. They wear form-fitting jackets, waistbands and affect monocles and spats. This, of course, does not apply to the peasant, who are a sturdy, homely, energetic lot, and constitute the backbone of the country and its chief hope for the future.

Although Bucharest prides itself on being the Paris of the Balkans, and French is spoken more than any other foreign tongue, there is a great desire on the part of the educated classes to learn English. American tutors are much in demand.

During the first five months of 1923, 17,443 tourists registered at the Chicago club, as compared with 16,153 during the first five months of 1922.

The answers to the call of the road began in January, when 1,360 tourists registered. This was 50 per cent more

than in 1922 when 1,305 tourists stopped.

Up to May 1, the figures show, 22,110 immigrants entered the Dominion

which is 10 per cent more than in 1922.

Immigration to Canada is growing.

Travel continued heavy during Feb-

ruary, when 1,276 registered as com-

pared with 1,009 during February, 1922.

The March figures were: 2,024 in 1923

and 1,694 in 1922. In April 2,914 regis-

tered as compared with 3,582 in April,

1922.

The increase jumped again in May

when 6,265 tourists registered as com-

pared with 7,380 in May, 1922.

Immigration to Canada is growing.

TRAIN WRECKS KILL THIRTEEN

French and Belgian Ambassadors to Meet Lord Curzon Again Today

French Government Puts Favorable Interpretation on the Conversations

LONDON, July 6. (By the Associated Press).—It was announced this noon that Count Du St. Aulaire, the French ambassador and Baron Monnheur, the Belgian ambassador, would see Lord Curzon this afternoon and present to the British secretary for foreign affairs further information, verbal and written, from their respective governments regarding certain points in their reparations policies on which the British government has sought clearer positions.

Favorable Interpretations

PARIS, July 6.—By the Associated Press.—French Government officials gave out today a favorable interpretation of the lengthy conversations over the reparations problem that are in progress in London.

It was said the tone drawn out negotiations indicated the allies were getting together and talking things over in a most friendly manner but it was frankly stated there was no sign that France was willing to modify her previous announced reparations program to which the British are opposed.

Eight Are Victims of Derailment of Express in New Zealand

Five Negroes Trampled by Cattle in Freight Wreck in Illinois

WELLINGTON, N. Z., July 6.—Eight persons were killed and 33 injured when an Auckland-Wellington express train was derailed near Thauherau.

Trampled by Cattle
ROCKFORD, Ills., July 6.—Five Negro laborers were killed and 18 injured, when a Chicago, Milwaukee and St. Paul fast freight train was derailed here last night.

They were riding on cars in the center of the train and were trampled by cattle released in the smash-up.

School Committee In Long Session Continued

on his motion and it was accepted with Mrs. Pearson alone in the negative. Mrs. Pearson qualified her vote by saying that she refused to vote for the group but would be glad to vote for one or two of the teachers named.

Mr. Molloy then presented a list for election for the second time. It developed that four on this list could, if the committee so voted, be named for the third time instead and this was done. They were Joseph M. Donoghue, William A. Donoran, Louise McKeon and Ethelred Wilmot. Mr. Delaney attempted to have the names of Miss Susan Driscoll, head of the department of household arts at the high school and Philip J. Maguire acted on separately. This was defeated and the entire list elected. The list for the third time was also accepted as was a list for the fourth time and permanent.

Mr. Molloy recommended that Miss Mary A. Dowd be elected to fill the

vacancy caused by Miss McLean's resignation. This was unanimously agreed upon.

New Kindergarten Teachers
Mr. Molloy named six vacancies for kindergarten teachers and named Elizabeth F. Carmichael, Elizabeth Fulton, Esther L. Conney, Olive Evelyn, Margaret Hogan and Agnes Joyce for these positions. A discussion concerning lack of knowledge of this selection followed but it was finally decided to elect the six for these positions.

A letter from Headmaster Henry B. Harris of the high school, in which he stated that he would need three more teachers for academic subjects next fall, and recommended the choice be made from Josephine Dunlavy, Anna Gardner, Ruth Monahan, Frances O'Brien, C. F. Hale, Agnes Lybrand, and Mary E. Hornby, all of whom came from Lowell, with the exception of Miss Monahan who resides in North Chelmsford. Several of the members were unprepared to vote on this important question and after a long discussion in which Mr. Harris was asked for information, the matter was put over until the next meeting, July 14, and that, in the meantime the members of the committee be given a list of applicants, their qualifications and the recommendations of the superintendent.

Mr. Delaney asked that the business report on the matter of purchasing four new instruments for the high school orchestra. It was stated that \$300 would buy the four instruments and this was voted.

Mr. Delaney asked that the matter of electing a music teacher be taken from the table. Mr. Molloy stated that another music teacher is not needed now and Mr. Delaney's motion was defeated.

It was voted to send Mrs. Pearson to Hyannis to attend the summer school conference as was done last year.

Miss M. Beatrice Devine was approved for temporary Kindergarten work.

Monthly school bills were approved, all in favor except Mayor Donovan. The business agent was instructed to purchase school planes as already voted.

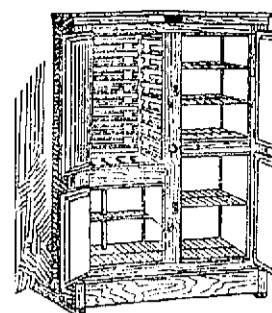

It was voted to pay Miss Mary McLean, teacher in the Girls' Vocational school for time lost from school due to cold which was attributed to the condition of the building following the fire.

On Mr. Riley's motion, George Flaggerty was elected assistant coach of track for the high school at a salary of \$200 for the term.

Plans for the improvement of the sanitary conditions in the Sycamore street and Moody schools were approved.

The meeting adjourned at 12:10 o'clock until next Tuesday, July 10.

FEDERAL MEN ASK FOR HELP

Gov. Smith of N. Y. Requested to Help Enforce Volstead Act

Big Increase in Rum-Running Since Governor's Repeal of Act

NEW YORK, July 6—Governor Smith, who signed the repeal of the state prohibition enforcement will be asked by Federal prohibition officials here to take steps to bring about enforcement of the Volstead act by state police officers.

Federal officials in conference yesterday decided upon this course because of the increase of liquor running since the repeal became effective. The Canadian border and Long Island, it was said, were the places where the smuggling was most rampant.

The recent dropping of 12 dry agents and the prospective further reduction of the local force, the officials asserted, have brought about a condition where the aid of the state authorities is vital.

Sir James Craig Issues Statement in Answer to Free Stater's Criticism

Premier Ascertains Ulster is Now Enjoying Peace and Prosperity

LONDON, July 6—The criticisms which Timothy Healy, governor-general of the Irish Free State, made of the Northern government in a recent newspaper interview have stirred the indignation of the Unionists.

Sir James Craig, the Ulster premier, who is staying in England, questioned by a representative of the Daily Express, said it would be improper for him to take notice of the utterances of the king's representative in the Free State, but that if some political member of the Free State made similar statements he would know how to deal with them.

The premier asserted that Ulster was enjoying peace and prosperity. "We have no man," he added, "who stirs up trouble or creates chaos in a part

OUTLOOK FOR BUSINESS GOOD

Head of Woolworth Firm Says Prices Are Now on Stable Basis

Sees Nothing to Hinder Business for Remainder of Year at Least

NEW YORK, July 6.—"Retail business is good and I cannot see any reason why it should not continue to be good for the balance of 1923 at least," H. T. Parson, president of the F. W. Woolworth Co., declared today. "We do not hesitate to contract for merchandise for future delivery, at present prices," he said. "I find most merchandise prices on a stable basis and for that reason, we are willing to buy ahead. We are not experiencing requests for financial help by manufacturers turning out merchandise for use as was the case last year."

LAWRENCE ASKS STATE ACTION REICHSTAG TO CONVENE TODAY

Patience in Telephone Tie-up
in Down-River City is
Exhausted

Chamber of Commerce Sends
Wire to Public Utilities
Department

LAWRENCE, July 6.—The Lawrence chamber of commerce last night sent a telegram to the state department of public utilities at the state house, Boston, urging state intervention to restore telephone service, demoralized here by the strike of operators for higher wages and a seven-hour day. The telegram follows:

"Local telephone service almost completely paralyzed, apparently no effort is being made by the New England Telephone and Telegraph company to supply adequate service. Please investigate and use your offices to have satisfactory service restored.

(Signed)

"ROBERT FARQUHAR, President."

The chamber of commerce also gave out a message sent to the telephone company headquarters, which read in part:

"On behalf of the subscribers in the Lawrence territory, we request satisfactory service from your company. Lawrence has been particularly patient since the crisis in the wage controversy developed. Since June 30 the service has been completely demoralized, however, and our patience is exhausted."

In answer to the telegram President Jones wired as follows:

"Your telegram concerning telephone service in Lawrence is just received. Certain conditions obtaining in Lawrence and differing materially from conditions in other cities have prevented us from making the same progress in restoring service that we have made elsewhere. If your board of directors would like to discuss those conditions and our plans for restoring service in Lawrence, I shall be very glad to arrange for an official of the company to meet you at any time you may designate."

Fred G. Cheney, manager of the Lawrence telephone exchange, said that several new operators had been hired today, and that "many more" would be secured tomorrow. Normal service, he predicted, would be restored within a week.

Willing to Confer

BOSTON, July 6.—William H. O'Brien, chief of the telephone and telegraph department of the state department of public utilities, said today that he had informed officials of the Lawrence chamber of commerce that he would be glad to participate in a conference with them and with officials of the New England Telephone & Telegraph Co., regarding telephone service in Lawrence.

The Lawrence chamber last night telegraphed the department that telephone service in that city was almost completely paralyzed as a result of the strike of operators for increased wages and a seven-hour day and asked that the department investigate and use its efforts to have satisfactory service restored.

President Matt E. Jones of the telephone company in response to an appeal from the Lawrence chamber for better service, last night, wired the chamber that conditions in Lawrence differing from those in other cities had prevented the same progress in restoring service that had been made elsewhere.

He expressed his willingness to arrange for an official of the company to meet the directors of the chamber for a conference on the situation.

Mr. O'Brien said that there appeared to be little change in the strike situation in this state. In Boston, he said, telephone service was better than usual, remarking that in recent years it had been far from satisfactory in this city and its suburbs. "In a few other cities, he said, the company had

AD CLUB OUTING PLANS

Famous Isham Jones Orches-
tra to Be Big Feature of
Event on July 12

with the unique outing held at Willow Dale last summer still fresh in mind, the Lowell Advertising club is putting on the final touches to well laid plans for the big 1923 outing to be held Thursday, July 12, at Merrimack park.

As before this year's outing will be marked with many unusual features and stunts, a grit of surprises in store for all those who attend and the person who does not have a good time during the 18 hours of food, fun and dancing this year had better con-

sult a specialist at the earliest moment.

The red-letter features of this year's outing are, in brief, as follows: Auto parade from the Hotel building, Thorne street at 12 o'clock noon; a souvenir dinner on arrival at the grounds at Merrimack park; 15 games, stunts and novelties for which approximately 50 valuable prizes will be given; a baseball game between teams from the Lowell Ad Club and the Kimball System; golf-faro on all the park attractions and dancing in the pavilion; a big, sumptuous dinner served at 8 p.m. to be followed by general dancing.

Ad club members will admit holders to dance the entire evening, till 1 a.m., with executive dancing in the pavilion, to music by the famous Isham Jones orchestra of Chicago, until 5 p.m. The public will be admitted after 9 p.m. in and best outfit ever arranged by any organization in Lowell. The tickets were not delayed while the wrecker put the car back on the rails and towed it away intact and all active resistance in the right, Berlin advises say.

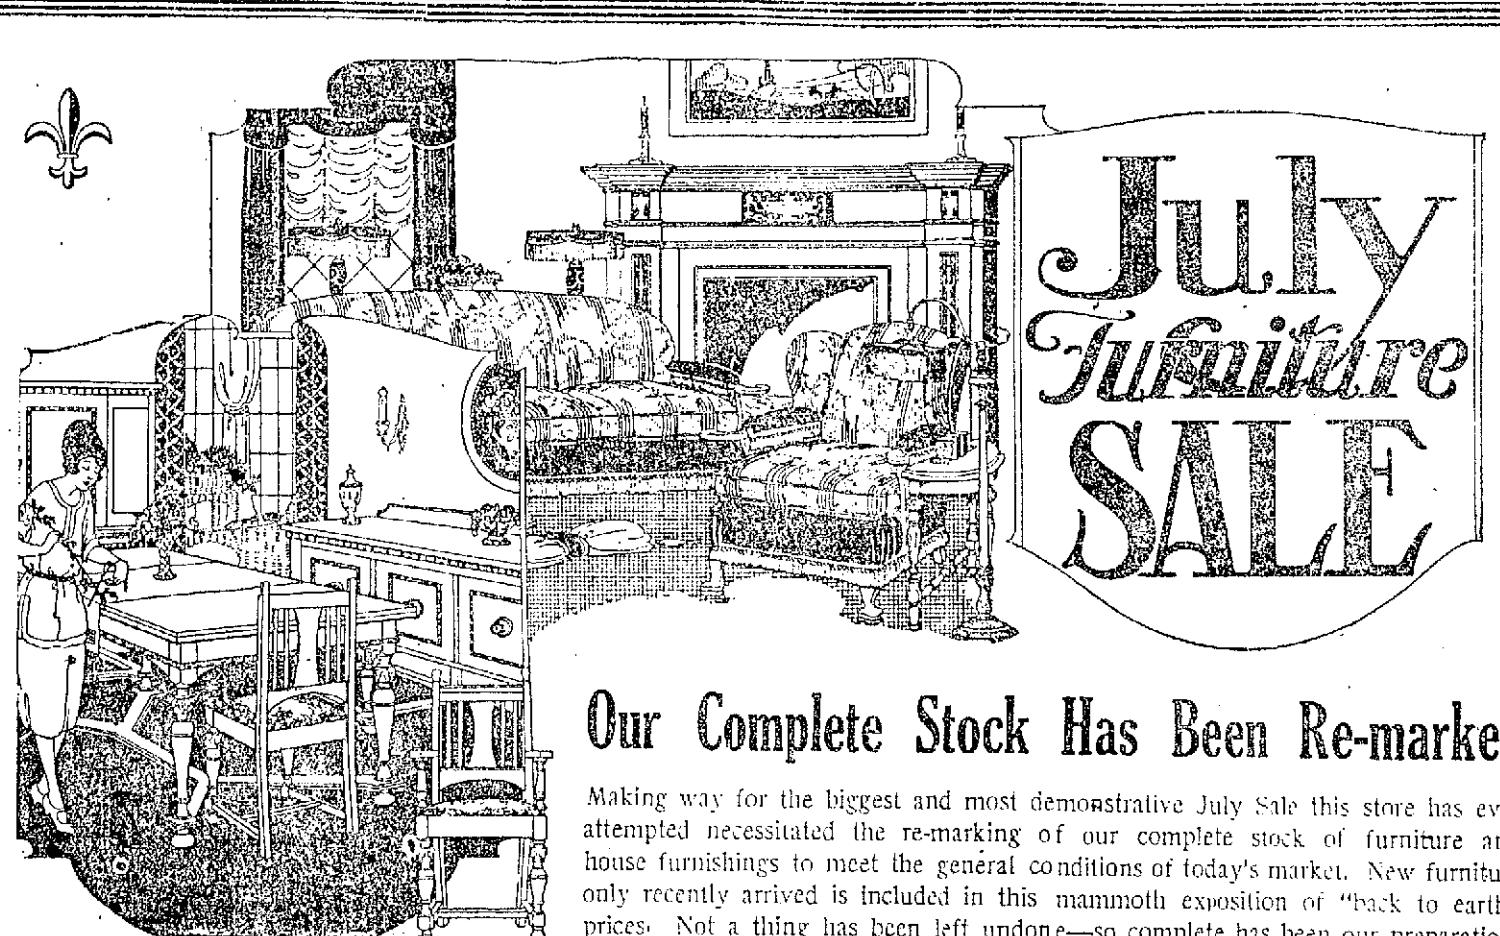

tickets is expected the next few days, with the outing less than a week off, so while downtown traffic is drop in to Prince's on Merrimack street and purchase your tickets. Remember that Thursday, July 12, is practically a holiday in Lowell, the majority of mercantile establishments being closed for the entire day on account of the clerks' outing.

CAR LEAVES TRACK

AND SMASHES POLE, ICE PATROL BOATS
HOME FROM WORK

HALIFAX, N. S., July 6.—The United States ice patrol cutters Tampa and Modoc are returning from the north Atlantic after their season's work. The Tampa arrived here today, and will leave tomorrow for Boston. The Modoc is on her way to Maine waters.

German government is about to decide on a new stage and all active resistance in the right, Berlin advises say.

Our Complete Stock Has Been Re-marked

Making way for the biggest and most demonstrative July Sale this store has ever attempted necessitated the re-marking of our complete stock of furniture and house furnishings to meet the general conditions of today's market. New furniture only recently arrived is included in this mammoth exposition of "back to earth" prices. Not a thing has been left undone—so complete has been our preparation.

Come prepared to witness the biggest values and the fastest selling you've seen in years. For the homes to be newly furnished or those to be refurnished, whether the type of furnishing be simplicity itself or the more extreme, preparations have been made and our display will bear out that what ever the need may be, the furniture is here that will fill it—and do so satisfactorily.

Unusual Prices In This July Sale

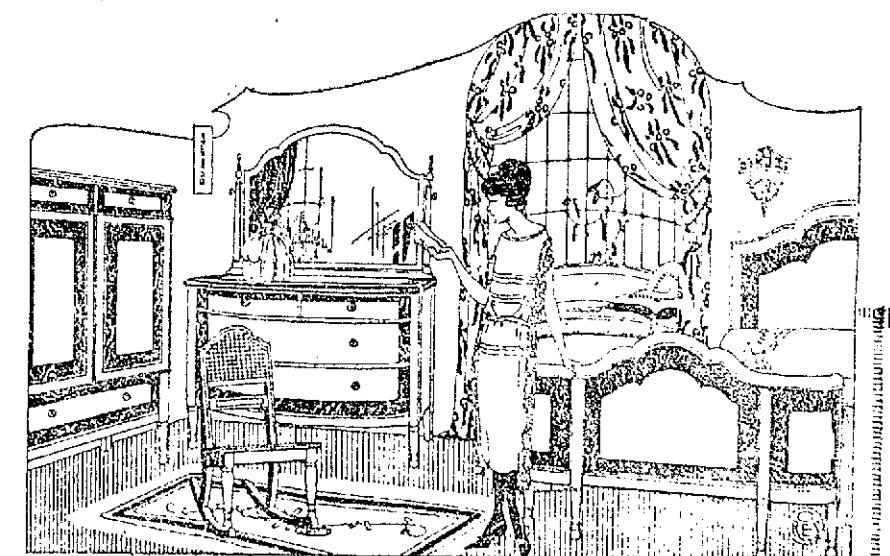

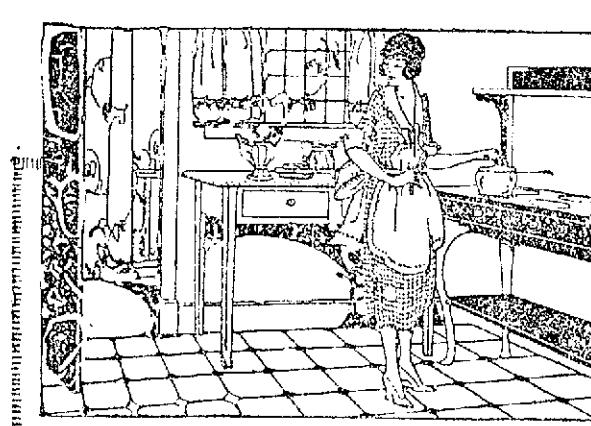

Low prices mean unusual values only when the quality that goes with them is worthy. Some merchandise is never good value at any price, the same may be said for furniture. The remarkable feature of this July Sale is that the very lowest prices have been put upon furniture of highest standards. And too, our comprehensive assortment of good furniture includes seasonable merchandise—many suites and dainty odd pieces in summer furniture—breakfast sets of six pieces—appropriate odd pieces for all nooks and corners of the home. Our July Sale is now in full sway—don't miss attending.

The very choicest in dining room, living room, bedroom furniture, hangings and drapes of all kinds and descriptions, floor coverings, furnishings for the kitchen—all this in very large assortments is now assembled—our stock is most complete and priced for quick disposal. Not only is it advisable that you attend but to do so early is most advisable when assortments are unbroken.

It's Practising Economy To Buy in this July Sale

As has been the custom at this store each year during the month of July special inducements are offered the public in the way of extraordinary values in order that our stocks may be cut down to make room for newly arriving furniture. Although buying this season exceeded our expectations we feel that it is consistent upon our part to hold our Annual July Sale this year and so measures have been taken to make this year's event the biggest ever known.

FREEDOM—AND HOME

Mrs. Mary Louorgan, of Brooklyn, N. Y., spent the first day of her freedom, after being acquitted of the murder of her husband, with some of her 14 children and the pet dog of the family. She called it her first real day of rest since she was married 30 years ago.

DISCOVERS WAY TO OVERCOME RHEUMATISM

Lowell Man Says It Quickly Disappears After Taking Dreco

Rheumatism not only ravages the system but leaves an indelible imprint on the mind. Its pain causes the features of the face and the limbs of the weakened membranes and restores body to become distorted. There is nothing that causes more intense pain, secret of DRECO's power over rheumatism. Yet it is avoidable, its suffering can be driven away and health put in its place by Dreco.

Mr. John Gilligan of 53 Hill-eth St., Lowell, suffered all the agonies known from rheumatism. Call today at Green's Drug Store and ask to talk with the expert from the Dreco Laboratories. He will gladly tell you of the merits of this wonderful remedy. Also he will honestly tell you whether or not he thinks Dreco will benefit you.

"As a medicine for rheumatism it surely has no equal and everyone both-ered with this insufferable trouble should take DRECO."

The Best at Moderate Price

This butter nationally known is just being introduced in Lowell. A number of grocers are already carrying it.

RADICAL STEP OF NEW PARTY

Federated Farmer-Labor Body Will Use Any Weapon to Secure Control

Party Will Reconvene as a Convention to Decide Its Fate as Party

CHICAGO, July 6.—(By the Associated Press)—Any weapon may be used in obtaining political control by the new Federated Farmer-Labor party. It is indicated in the tabling of a resolution by the convention which would have excluded any group which advocated force or violence or which in any way was affiliated with an organization that sought political satisfaction through the ballot.

This radical action type was supported, first by tabling the substitute platform of the farmer labor caucus, which included such a section and later by tabling a resolution recommended by the majority of the resolution committee. Sentiment of the conference on each occasion was expressed in表态 voting.

The Federal Farmer-Labor party adjourned as a convention early today with only routine business of the elected executive committee on its hands. This committee will meet later today to choose an executive council, other officers and map out a program of state and local activity.

The farmer-labor party will reconvene its convention to decide its fate as a party. It proposes to join in the platform as adopted by the federated group but reserved final decision until the platform was officially brought before its convention. National officers of the farmer-labor party last night, were of the opinion that the party would subscribe to the federated organization.

The representatives of the workers party, an acknowledged branch of the communists, were jubilant.

GATES SPEAKS AT C. E. CONVENTION

DETROIT, July 6.—E. B. Gates of Boston, general secretary of the Christian Endeavor society, was one of the chief speakers on today's program of the International Christian Endeavor here.

Special "quiet hour" services were held in three churches during the formal and group conferences dealt with leadership training, missionary education and religious vocations.

The main session of the convention had before it a resolution condemning the 12-hour day, and seven day week as opposed to Christian principles and a menace to the welfare of workers.

Tonight a pageant depicting "the new life" is to be offered by 600 persons and a concert by the 600 voice chorus will precede the annual banquet.

VETERANS TO PLAN FOR WORLD PEACE

INDIANAPOLIS, Ind., July 6.—Members of the "Pledge" committee of the American Legion, representing the United States veterans in the movement among former World war fighters of eight nations for international peace will meet here in executive session on July 26.

A program for the legion's participation in the affairs of the international organization will be considered for presentation for the national convention of the legion in San Francisco and the legion's representatives in the annual convention of the "Pledge" to be held in Brussels, Belgium, in September, also will be discussed.

H. Nelson Jackson of Burlington, Vt., is chairman of the committee of which Representative A. Pratt Andrew of Massachusetts is a member.

EXPERIMENTS SUCCESS

Tests Show Artificial Lumber Gives Promise of Structural Utility

WASHINGTON, July 6.—Experiments in the making of "artificial" lumber are arousing increased interest among government officials and leaders in the lumber industry.

Although none of the product has been marketed, officials of the National Manufacturers Association declare that tests already made of a synthetic composition produced by Minnesota lumber interests show it possesses many qualities making it available for structural purposes.

The experiments are based on somewhat the same principle as that employed in the manufacture of paper from wood pulp. In the process not only the trunks and branches of young trees, but the leaves and smaller parts as well are ground up and mixed with

other substances, virtually eliminating waste. The resulting compound is capable of being moulded into sizes and shapes of almost any description needed in building.

Officials of the Lumber Manufacturers association declare that if a practical method of this sort can be perfected, the result may be to revolutionize the entire lumber industry. Aside from utilizing the present great waste in converting trees into usable lumber, they say, it presents a solution to the manufacturer's problem of finding sufficient material in the country's rapidly diminishing timber resources.

From the time the standing tree is turned by the sawmill into planks and boards and applied in construction, from 60 to 80 per cent has been wasted. This includes stumps, chips, bark and branches, plank and log trimmings and a huge amount of sawdust. The new method will use all of this.

Already \$750,000 have been spent in experimental work in this direction by the Wisconsin lumber interests in Minnesota. These experiments are said to have been undertaken largely because one of the chief obstacles encountered by lumber manufacturers is the competition of paper manufacturers, who can use young trees unsuitable for lumber purposes. This is especially important in the lake states where pulp mills so compete with sawmills as to make it practically certain that very little saw timber will be grown commercially under present conditions. Timber owners said that in from 15 to 20 years they can grow crops of spruce that will be suitable for the pulp and paper mills, whereas it would take from 50 to 100 years to grow a crop that would meet the requirements of the lumbermen.

According to the manufacturers' association, tests have shown the artificial lumber to have a sufficient tensile strength and to be capable of being sawed, planed and nailed, so that the product has only the charm of the grain effect of natural wood. Officials of the forestry service, while decrying the fact that not yet been used, the strength of the artificial boards equals that of the natural ones, believe they would be useful for many purposes. One of their strong points, it is said at the forestry service, is the water-proof qualities and insulation against heat and cold.

"Yes! We Have No Bananas!" This expression needs no introduction—it's the slogan of most American movie houses with feature films. It is positively irresistible—especially if you hear Fujimori and Nagai put it across on a Columbia Record with their lathered spontaneity.

"Don't We Carry On" is on the other side—so silly that you'll play it twice.

WOMAN MAKES RECORD

Mrs. Horchen Establishes World's Altitude Mark for Women Aviator.

ST. LOUIS, July 6.—Mrs. Martha Dale Horchen, of St. Paul, Minn., Keweenaw, the world's altitude record for women when she reached 16,340 feet at St. Louis yesterday. The previous record of 15,000 feet was made by a Frenchwoman, Mme. M. M. L. The flight was made during a competition for the National Aeromobile Association.

REDUCTION IN HOURS

Promised by Pres. Harding in Steel Trial When Labor Is Available.

Washington, July 6.—President Harding has promised to reduce the hours of labor in the steel industry when labor is available, if the miners will accept the reduction in hours of work which the miners have demanded.

The miners have demanded a reduction in hours of work from 80 to 60.

THE IMMIGRATION PROBLEM

The opening of the new financial year has brought to our shores a great rush of aliens from most of the countries of Europe and some also from a few of the Asiatic countries.

The quotas allowed the various nations under the present law have been slightly modified to conform to new boundary lines, but otherwise the conditions of entrance to our ports are the same as before—first in, first admitted, whether or not they are the most desirable. It was expected that some effective form of selection would be adopted to prevent undesirable immigrants from coming here and to choose the best from those wishing to come; but nothing of this kind has been thus far attempted. The steamship lines are still free to accept all comers who have the money to pay the passage rates; and the rejections are made at the American ports.

This is not as it should be. Another thing that seems to be wrong, and in some cases actually cruel, is the separation of members of the same family by admitting some and deporting the others. This was indicated very forcibly a few weeks ago in the case of a Russian duchesse who was herself admitted as being allowed within the limits, but her baby was barred, on the ground that the Russian quota was filled. In such a case, it might be supposed that common-sense and a spirit of humanity would dictate the wisdom of admitting the child also and counting it in with the next month's quota from that country.

But, unfortunately, in this law there is a lack of elasticity that works great hardship, if not actual cruelty, in some cases. Yet wise administrators might overcome this defect by the method suggested or else by keeping a slight margin open to prevent the heartless separation of parents and children, husband and wife, brother and sister. What is now lacking in the administration of the law seems to be a medium of gumption on the part of the authorities. Congress should put a little elasticity into the law in order to prevent heartless separations such as referred to; and it should make provision for a proper selection of our immigrants before they are allowed to embark for this country.

Some steps should also be provided to stop the smuggling of immigrants over the border, which has now become a live industry which is said to be quite as profitable as the smuggling of liquor from Canada or the West Indies.

ACCIDENT FATALITIES

"Ten dead and many hurt in auto accidents" is the terse story of recklessness driving in New England on the holiday. It is safe to say that of the dozens injured, several will die while others will be maimed or crippled for life.

Two frightful accidents at railroad crossings are recorded, with serious loss of life and injury to survivors. One of these occurred at Salmon Falls, N. H., and the other at Hudson, Mass. This is a sad commentary on the recklessness of our highways due to sheer recklessness on the part of the drivers.

District Attorney Benton of Boston says that New England pioneers in the midst of warring Indians were less dauntless than the law-abiding pedestrian or auto driver of today on the highways of Massachusetts. He places most of the blame for traffic accidents on drunken drivers.

The more congested our civilization becomes, the more dangerous. We of the cities go about our daily business in almost as much peril as the average soldier who marches off to war. If you dodge the autos, a brick may fall off a tall building. Soon airplanes will be dropping wrenches and the like—no longer are we safe from above.

It is difficult to see how this recklessness will be overcome. Registrar Goodwin is doing his level best; but apparently the more is done to prevent accidents, the more numerous they become.

Lowell, fortunately, did not figure in the death lists from accidents on the Fourth. But our street accidents are far more numerous than they should be. Even the death of several children who ran out in front of autos will not induce parents generally to caution their children against such dangers. There are reckless drivers and the parents who allow their children to get in the way of speeding autos are equally to blame. The driver who kills a child on the streets is answerable for manslaughter; but he is not at liberty when it is shown that the child darted out in front of his machine. Who then was responsible? The parents of the child were to blame for its death.

THE SHELBY FIASCO

It is really a great source of gratification to find that the public refused to be hoodwinked by the price of seeing the Dempsey-Gibbons fight at Shelby, Mo. Shelby assumed heavy financial obligations on which it flunked and Dempsey's manager at the last minute had to offer inducements to the waiting multitude in the shape of reduced prices, cutting the figure from \$35 to \$5. The paid attendance was so small an effort an amateur rebuke to the Dempsey boosters and promoters who sought to make more money out of that fight for the champion than was ever made on any similar occasion by any of the champions of the past.

The American public refuses that the fans refused to be hoodwinked. The result proves that the people are beginning to know good judgment in standing off human games of every kind and description.

The Shelby fiasco will convey a valuable lesson to some ambitious cities and also to the sports who set out to make unreasonable demands upon the public for the privilege of seeing prize fighters pummel each other.

Auto racing is too dangerous to be called a sport.

SEEN AND HEARD

Lowell's safe and sane Fourth observance shows it really can be done.

Since a bricklayer's pay equals about 700 eggs, the hens ought to learn to lay bricks.

The report that Bryan has challenged the Dempsey-Gibbons winner has not been verified.

Watch coal dealers sold a million tons in U. S. while miners are running a Welsh "racket."

Calvin Coolidge says pay more attention to culture. We say pay more attention to agriculture.

In a city they argue what time it is; in a town what day it is; in the country what month it is.

A Thought

Simply by swatting the fly wherever possible, and the most effective means of exterminating the pest is to destroy its breeding places. Keep garbage receptacles and other fertile sources of fly propagation covered.

As to the mosquito, it thrives on stagnant water from which it sallies forth in quest of its human prey and succeeds in making it uncomfortable for both sexes by an attack upon their pedal extremities or other parts of the body where not covered by substantial clothing. The mosquito is favored by the fashions that introduce the sleeveless, low neck dresses for ladies and by the open dress fabrics through which the mosquito can readily thrust its poisoned spear. If everybody would help in battling these two pests, two great sources of discomfort and disease would be overcome.

PURE FOOD LAW

It is not generally known that another modification of the pure-food law became operative a few days ago. It prohibits the practice of blowing-up or inflating bob veal in order to improve its appearance. Another provision prohibits the adulteration of milk and cream by the addition of fats or oils which are foreign to the milk.

The chief defect of milk is a deficiency of solids. It has been found that some milk dealers endeavor to overcome this by introducing adulterants in the form of fats and oils but these are readily detected by the milk inspectors although not so easily by the consumers. The milk inspectors in this vicinity have not reported any violation of the law in this respect but the collectors of milk in large cities have been found to adopt this form of adulteration. The law is therefore necessary.

INSURANCE

Queer situations develop in the scientific betting systems known as insurance. At the University of Kansas recently some students took out policies that paid them \$250 apiece if they flunked examinations. In our own vicinity, parties running entertainments in the open often insure against rain.

Insurance against unemployment is being worked out by big companies on a basis that will protect employers as well as employees.

NOTHING IMPOSSIBLE

Suppose you were caged in by a straight-up stone wall 33 feet high. Could you get out? Would you try? They have such a wall at the state penitentiary in Joliet, Ill. And for a year no prisoner thought it could be scaled. One thought differently. He could be scaled, the guards said.

To everyone's surprise, a sleek-looking man who had tried to break out said: "I'll get out again, I thought you had slaughtered me."

Let's Think of Peace

A memory of wartime things which invalidates the policy. If the new starts from operating on instant "moonshine" still.

Let's Think of War

Another new angle is a clause being inserted in some fire policies which invalidates the policy. If the new starts from operating on instant "moonshine" still.

And well we may. Whatever field Whatever memory may yield. Whatever tale of heroes brave. Whatever daring history. Whatever written on our land or sea.

No page more rich, no page more fair. Than was the first page written there. The tale our fathers wrote upon the altar of a nation's dawn. A nation to live forevermore.

So we do well to think of war.

And yet that war was fought in vain. And yet the war we fought again. And yet who think of war shall cease. In thinking war, to think of peace.

Let's think of peace. Prepared for war. Ready for peace everywhere. So bold the nation it may be our fearless dream of liberty.

To build the structure of the law. Their will stand in equal awe.

And yet that war was fought in vain. And yet the war we fought again. And yet who think of war shall cease.

In thinking war, to think of peace. The not for war men fight and fall. For peace they battle, after all.

And peace, like war, has need of men. His need of souls as brave as then. The waging drama may stir the heart. But when the waving flags depart. Men's souls are greatly need to stand.

For God and home and native land.

Let's think of peace. Prepared for war. Ready for peace everywhere. So bold the nation it may be our fearless dream of liberty.

To build the structure of the law. Their will stand in equal awe.

And yet that war was fought in vain. And yet the war we fought again. And yet who think of war shall cease.

In thinking war, to think of peace.

Let's get a little nearer God.

Let's seek the truth with fathers, too. Let's learn to live in their spirit.

And learn to plan and cease to drift. Let's build a land, a land to last.

Upon the ramparts of the past.

FURTHER PROBE

IN VALUATIONS

WASHINGTON, July 6.—The principles employed by the Interstate Commerce Commission in determining the valuation of railroads were subjected to further analysis today, in an effort to clear up that body.

The hearing, which began yesterday with an attack on the commissioners, continued by Mr. Eichberg, counsel for the national conference on American railroad valuation, and a defense by Mr. Russell, solicitor for the commission. It is expected to continue through tomorrow. Counsel for various railroads and J. E. Benton, counsel for state railroad commissioners, have been called in to represent their respective interests.

Fear of poison house should be a great aid to the enforcement of prohibition; but it is remarkable how many are willing to take a chance even though the result may be death.

The Canadian export business in which goods is reported on the increase but it does not seem to injure the local insurance industry.

We want a new distilleries built and the county should furnish it as it has provided such buildings in other cities.

The Legion requests that fighters didn't knock Dempsey's block off. So do we.

Auto racing is too dangerous to be called a sport.

GEN. GOURAUD TO

INSPECT MARINES

WASHINGTON, July 6.—General Georges, leader of the Fourth French army, went to Quanton, Va., today, aboard the president's yacht, to visit the Fifth and Sixth marine regiments which distinguished themselves under his command in the Champagne offensive.

The general was accompanied by Major General Lejeune, commandant of the marine corps, assistant Secretary of the navy department, and other high officials and army and navy officers. They stopped en route at Mount Vernon to pay tribute to the memory of Washington.

THE MAN ABOUT TOWN

Bred Crowley, trustee of the street railway company, was one of the lucky "guys" up at the midway Wednesday. He and two of his daughters went up to the midway in the afternoon and inside of a few minutes each of them had won a beautiful blanket. He said that winning so early in the day spoiled the fun for the blankets were clumsy to carry and he had to go home with them before finishing a tour of the concession.

"Rickey" Keefe, the popular car operator who came into prominence several years ago for his feats of swimming through the ice at Beaver Brook, amply proved to the people who were at Lakewood last Sunday that he had just as much courage in summer as he has in the winter time. It was he who dove into the waters of Lake Masticope to go to the rescue of a young man who was thrown in the water when his canoe was overturned and it was he also who dove to the bottom of the lake and brought the victim to shore. The man was dead when brought to shore but "Rickey" had done everything in his power to save him. It took considerable courage for a man dressed in ordinary street clothes to dive into the water to render assistance to a drowning man and it takes more courage than that to perform the same stunt when dressed in a heavy uniform.

A correspondent who seemed to have a grievance sends a communication to The Sun criticizing some of the ash collectors for refusing to empty his ash barrels on the ground that they were too heavy to be handled. He says that frequent complaints of this kind have been made against the collectors but it may be that the ash men are expected to lift and dump on their wagon the heaviest barrels or casks that are placed on the sidewalks.

It happens when some of these are left under the rain for a day or two, that they are pretty well filled with water; but this might be easily disposed of by emptying it in the gutter instead of the wagon. Of course it is impossible to please everybody and the ash men will occasionally come in for criticism. Undoubtedly there are two sides to every case of this kind, and while there may be just grounds for complaint against some of the ash men on occasion, I believe that most people have found them very willing to do their work as best they can, and on the whole, very obliging.

There is a rather dirty job and it is not surprising if at times they object to conditions that make it more irksome.

FRECKLES AND HIS FRIENDS

Radiographs

ULL COMES IN RADIO PROGRESS AND INTEREST

After the first spurt in radio development, the science seems to have settled down to a matter of distance and hook-ups.

Yet, there is more to be done to improve present apparatus and perfect the science than has been accomplished so far.

The full in the process of development, like the quiet after a storm, does not mean, however, that scientists are resting after their first successes. On the contrary, more research work is being done nowadays than ever before.

But this is the quiet, plodding kind of work which retains its secret until it has accomplished something big in the development of the science. When the scientists are ready to announce their next developments, it

will be like another wave in the advancement of radio.

Meanwhile radio fans are getting their fill of hook-ups and chances for their receiving and transmitting sets, in order to gain what seems to be the greatest desire nowadays—distance.

Broadcasting stations pride themselves in the distance and areas they cover with their concerts, and amateurs vie with one another in attempts to cross the Atlantic on low wave lengths. It is a general race for distance records.

Yet, ultimately, distance will have little significance in radio transmission. Broadcasters will end their race for the farthest receiver and devote more attention to the quality of their programs. For broadcasting eventually will have to be systematized and even centralized to bring out the best that is in it.

Broadcasting stations in England don't try to seek the most distant receiver possible. There, the broadcasting is divided into geographic areas and a station provided for each. And all stations are under centralized government control.

In this country, the plan is to establish a central broadcasting station from which concerts would go out to auxiliary stations in important centers. Thus one good program could be heard at the same time throughout the country.

SPARK STILL HOLDS ON

Spark transmitters are still holding their own life against the invasion of the more efficient C. W. sets. At present about 10 or 11 per cent of the amateur transmitting sets are still spark. But this percentage is wanting gradually.

DISTANCE RECORDS

The longest long distance records for amateurs and broadcasting stations will be these: 10,000 miles to Invercargill, New Zealand, from station WHEZ at Troy, N. Y.; 11,000 miles to a ship near Ceylon, from E. W. House, station 81M, at Galveston, Tex.

RECEIVING IN EUROPE

Few residents of Germany can afford to own a receiving set, because it costs about \$120 for a license. In France, the cost is 16 francs, and the radio fan has to promise to keep secret all intercepted messages and to disconnect his set whenever the government advises it.

Delicious Iced-Tea Without Boiling Water!

A marvelous discovery made possible by TAO TEA BALLS. No Boiling or Heating Water. No Waste of Ice. No Waste of Tea. The Simplest Method Ever Devised.

Just drop a TAO TEA BALL into a teapot containing four cups of cold water (no ice-water) after breakfast—by lunch time you will have delicious amber-colored tea, clear, sparkling, fragrant. Serve in glasses with lemon and powdered sugar to suit your taste. Frost with a chip of ice.

Slowly the cold water draws out the very essence of the flavor of the Flowery

Orange Pekoe blend. No flat taste of boiled water. The sparkle and vitality of fresh water mingled with the delicate fragrance of TAO TEA.

No matter how long it is brewed TAO TEA never grows bitter. Tao Iced-Tea is so easy to make. Ready the instant you want it! Make up a supply in the morning—serve it throughout the entire day.

BEST HEAVYWEIGHT CONTEST IN HISTORY, SAYS REFEREE DOUGHERTY

REFEREE DOUGHERTY SAYS BOTH FIGHTERS DESERVE PRAISE

Third Man in the Ring at Shelby Lauds Gibbons' Gameness—Challenger Put Up Most Wonderful Defence He Had Ever Seen—Also Says That Dempsey Has Much Improved as a Boxer

GLACIER PARK, Mont., July 6.—Jack Dempsey has improved wonderfully in his boxing, declared Jimmie Dougherty, referee of the Dempsey-Gibbons bout at Shelby. Dougherty came here for a tour through Glacier Park and gave out a statement on the fight.

"Dempsey was in the best physical condition that I ever saw in an athlete," said Dougherty. "The reason he did not stop Gibbons was not the lack of him not being a great fighter. It was because Gibbons put up the most wonderful defense I have ever seen."

"I want to say that Gibbons is the greatest man that I have had the pleasure

of refereeing a contest for. He was in much distress in one of the rounds for the sake of his body, but that I actually heard the sound of his heart beating when I was paring them, which goes to show the wonderful gameness of the man to keep on fighting under those conditions."

"Dempsey is one of the best heavyweight boxers in the history of the ring, and will be in the history as one of the best boxers in history in all the past, present and future."

"Dempsey has proved that he is the fastest and hardest hitting and most scientific boxer that ever held the heavyweight championship. It was the best fight that I ever have seen in a championship contest."

DEMPSEY HIT FEW LOW BLOWS

Gibbons Has Black and Blue Marks on His Groins From Punches

Once During Bout Gibbons Told Dempsey to Get His Punches Up

GLACIER PARK, Mont., July 6.—Richard T. Burke of New Orleans, who acted as official timekeeper for the Dempsey-Gibbons fight, made the statement that as the result of Dempsey's low body blows, Tom Gibbons bears on his groins black and blue marks as large as a man's hand.

Burke said, however, he did not believe that Dempsey intentionally gouged Gibbons.

The only word spoken by the contestants during the fight was uttered by Gibbons. Timely, Burke said, he was in one of the early rounds and Gibbons, while exchanging blows with Dempsey, addressed himself to his opponent saying: "Jack, get 'em up." He was then referring to three or four body blows struck him in the groin, Gibbons explained.

"I saw Gibbons this morning before I left Shelby for Glacier Park," Burke went on and "Tommy" Burke said, "I immediately said, 'What Tom, the press ought to know about this' whereupon Gibbons beseached me not to tell the newspapermen. I don't have to have any allies in this fight, Gibbons said."

NEW YORK WANTS A GIBBONS MATCH

SHIBBY, Mont., July 6.—(By the Associated Press) Eddie Kane, Tom Gibbons' manager, said he had received tentative offers from Tom O'Rourke, matchmaker, for a bout between Gibbons in the Polo Grounds, New York, August 2, against the first available opponent and for a return match with Chuck Wiggles of Indianapolis whom Gibbons knocked out recently.

Gets Stage Offers

Several vaudeville offers also have been received and Kane declared Gibbons probably would go on the stage for a short period.

Another of the final chapters in the financial tangle connected with the title bout here was written today when an attachment was served on Jack Kearns by the manager of Ernie Sayles, Rochester, Minn., light heavyweight, who was knocked out by Jack MacDonald of Seattle, in the first preliminary Wednesday. Sayles claimed \$75 from Kearns, who said he would settle the bill which he declared he knew nothing about previously.

PRIZE FIGHTING IS DENOUNCED

WINONA LAKE, Ind., July 6.—(By the Associated Press)—The world court was considered today by the International Conference on Christian Citizenship, composed of approximately 2000 delegates from all sections of America and representatives of more than a score of foreign nations, most

DEMPSEY STARTS ON A VACATION

Has Only a Few Marks as Result of Wednesday's Battle at Shelby

Kearns is Already Negotiating for Next Bout for the Title Holder

GLACIER PARK, Mont., July 6.—(By the Associated Press) World's heavyweight champion last night started out on a few days' vacation after his punishing nine weeks' training grind for his championship battle with Tommie Gibbons at Shelby Wednesday. The title holder, accompanied by his father, Harry, his valet, his faithful little trainer, Eddie Standard, a nephew, and Miss Trout, his chief detective, left Shelby for Salt Lake City to visit his mother, before proceeding to Los Angeles.

The champion expects to be in New York by Aug. 1, ready to resume training for a title match with either Harry Wills, the negro heavyweight, or the winner of the Luis Firpo-Jess Willard fight.

Kearns Angling for Bout

Dempsey understands that Jack Kearns, his manager, already has opened negotiations for the next bout.

Dempsey was in high spirits, joking with the big crowd that came down to the station to see him off. His right eye was only slightly discolored and the cut over his left eye was starting to heal. The champion bore no other marks as a result of his 15 round battle.

The training camp was deserted yesterday. The 31-room old brick house resembled a deserted haunted house. Bernard Dempsey, a brother of the champion, was the only occupant of the place. He shuffled from one room to another, picking up the odds and ends of training equipment.

Members of Dempsey's training staff started to scatter today. Harry Drake, British light heavyweight, who lost to Bud German in a preliminary at Shelby, wore a bandage over his right eye, which was swollen shut. Drake entered the ring with the eye bruised as a result of working with Donnay.

John Wills, the English heavyweight, is matched to box in Olympia, while Jack Burke, Pittsburgh light heavyweight, plans to return home. George Godfrey, the 225 pound negro whose ribs are still sore from the punching he received from Dempsey, intends to return to his home.

Dempsey Said for \$1750

Suit for \$1750 in damages alleged to have been done to property at Dempsey's camp was filed in circuit court yesterday by the owners of the property.

The owners contend that when the lease of the house was signed out improvements made were to remain.

The complainant alleged that the two removing rings, valued at \$750 had been removed and that plumbing installed in the house, valued at \$500, also had been taken out. The bill further says that a passenger was allowed to fill with water the tank, causing \$500 damage to the furniture.

With the departure of the champion, Great Falls started the march back to normalcy with a better understanding of the term.

Several merchants lost heavily in goods, which they had expected to sell before the fight. One merchant found himself loaded down with 2000 pairs of open gloves, which he had expected to sell to the occupants of the cheaper seats.

Kinks o the Links

When a player is in a hazard is there any penalty attached if he accidentally does something that improves the condition of play? Just what demands are made of the player in getting out of a hazard?

If a player improves existing conditions in a hazard, no consideration is given to the fact that the happening was possibly accidental. This would place a premium on doing some little things that would help the play and improve the hazard.

Then there is the case of Jack Bentley for whom the Glens paid \$50,000 in his first two starts the former Baltimore star has been pounded all over the field. He was allowed to pitch his entire first game, having removed in the second after the Phillips had made nine hits in three innings.

Two Big Features

Lately both Rommel and Bentley have lit their stride. On Rommel's showing from the box, the friends of the Athletics to find in the first division, Bentley is now showing the form that made him the big star of the international league and he is winning with regularity for McGraw.

Howard Ehmke, Boston Red Sox, stands as the sensation of the year as far as form reveres. Ehmke, for the fall, has been the most consistent winner in the American League.

In a season that has featured the unusual, both minor teams, the sensational, the fast, the brilliant and the remarkable pitching of Howard Ehmke are the most noteworthy.

ing here this week to consider the material problems of the world.

The conference went on record yesterday as opposed to prize fighting, especially on the Fourth of July, characterizing the Jack Dempsey-Tom Gibbons fight last Wednesday at Shelby, Mont., as "a demoralizing pugilistic

dispute" caused by the third section of Rule 12 relating to stroke competition. Smith should have lifted his ball or played it when requested to do so by his opponent. The rule states that the competitor whose ball is further from the hole may have the ball which is nearest to the hole, or may elect not the option of his choice. Failure to do so should result in disqualification.

This dispute is covered by the third section of Rule 12 relating to stroke competition. Smith should have lifted his ball or played it when requested to do so by his opponent. The rule states that the competitor whose ball is further from the hole may have the ball which is nearest to the hole, or may elect not the option of his choice. Failure to do so should result in disqualification.

TYLER INDEPENDENTS IN FIRST GAME

George "Luffy" Tyler will pitch for the Tyler Independents in their opening engagement of the season at Almond Field against the original Boston Tigers, tomorrow afternoon. Fred Tyler, brother of George, recently of Watertown, Conn., in the Eastern League, will catch. The Tyler Independents will offer one of the best batteries which has held forth in Lowell for many seasons. This battery will be the support of the pick of Lowell Twilight League players and imported residents, forming a capable crew to oppose the experted players.

GEORGE "LUFFY" TYLER WILL PITCH FOR THE TYLER INDEPENDENTS IN THEIR OPENING ENGAGEMENT OF THE SEASON AT ALMOND FIELD AGAINST THE ORIGINAL BOSTON TIGERS, TOMORROW AFTERNOON. FRED TYLER, BROTHER OF GEORGE, RECENTLY OF WATERTOWN, CONN., IN THE EASTERN LEAGUE, WILL CATCH. THE TYLER INDEPENDENTS WILL OFFER ONE OF THE BEST BATTERIES WHICH HAS HELD FORTH IN LOWELL FOR MANY SEASONS. THIS BATTERY WILL BE THE SUPPORT OF THE PICK OF LOWELL TWILIGHT LEAGUE PLAYERS AND IMPORTED RESIDENTS, FORMING A CAPABLE CREW TO OPPOSE THE EXPERTED PLAYERS.

Jack Daw's Adventures. Chapter 17

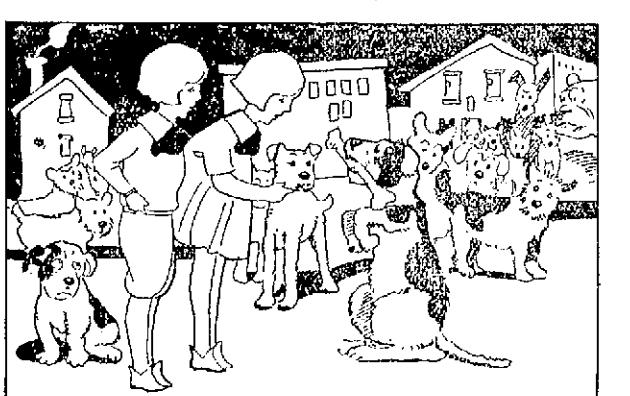

"My, but that was a narrow escape," shouted Jack. "Yes," replied Trixie, "and you are not going to have any more, if you will do as I say." Then she told Jack to hop into Hoppy's arms and the pet kangaroo would carry him to where her father's bow and arrow were. Jack hopped in, and away he went.

After many hops through the woods the kangaroo set Jack down and he was much surprised to find Trixie and Cucumber waiting for him. "Here is the bow and arrow," shouted Trixie, "but before we shoot it I want to rest. I've had a long run." So Cucumber took the bow and made a swing for Trixie to sit in.

Jack was amused to see how Cucumber swing the string part of the bow over a limb, and he was glad to join Trixie in the swing when she invited him to. Then Trixie explained that Jack must shortly shoot the arrow straight into the forest. "Then we'll follow it and see where it goes," said she. (Continued.)

"PERHAPS THIS IS IT," SAID A THIRD DOGGIE

The Choo-Choo Express stopped suddenly.

"Bow-Wow Town!" called Master Punch, the conductor. In a loud voice.

"There's no use getting off here to look for Ruby Joan, my lost rag doll," said Nancy, "because she hates dogs."

Mister Punch heard her.

"Why I should think it would be the very place," said he, "because any dog may have picked her up and run off with her."

"That's so," remarked Nick. "Come on, Nancy, we'd better look."

So they got off the funny little train.

Nancy put her fingers in her ears and made a face. "Oh, isn't it awful," she yelled. "I never heard so much noise in my life."

It was true, for every kind of dog in the world appeared to be there and they were all barking a welcome to the strangers.

But bye and bye it became quiet and Nick asked the nearest one if anyone had seen a rag doll.

PUBLIC LINKS CHAMP GIVEN CUP

Secretary of State Hughes presents the Standish Cup to Dick Walsh, New York newspaperman, who won the golf tournament at Washington, D. C., in which representatives of public links in many cities participated.

NEW STYLE IN ALARM CLOCKS

J. P. Davis and family of Toledo, O., were awakened at 5 o'clock the other morning when six freight cars tried to crawl into their ground-floor bedrooms. The large tree, tangled around one of the ears, fell across the doorway where Davis and his wife slept. They escaped with slight bruises. The brakeman of the interurban train was killed. The motorman jumped from his cab when he saw the crash was inevitable.

EDWARD J. JUNNELLY,

Safety Lessons
FOR
The Auto DriverPrepared by the National Safety
Council—Issued by the Mass-
achusetts Safety Council.

No. 1—The Automobile Brake

Brakes should be tested each day. Before going half a block from the garage make a service test on dry spot by throwing out the clutch and applying the brakes. Under no circumstances should the car be taken farther if the brakes are not operating properly. Drive back to the garage and see that the faults are corrected.

Automobile brakes have a definite relation to safety. Important points are: See that a good type of brake lining is used.

Make sure that the brake lining is properly installed.

Keep the brakes in good operating condition.

Make frequent tests for proper brake adjustment.

Only an experienced mechanic should install brake linings.

He should make certain that the lining is properly stretched to avoid buckling. The rivets should be properly countersunk; otherwise the metal of the rivets will score the brake drum and the brakes may not hold in an emergency.

Once a month remove the rear wheels and wash the brake lining in kerosene. This removes all oil and grease which, if present, take the "bite" out of the brakes. Never oil brake lining.

Brakes squeak when they are glazed or when improperly adjusted. Squeaking can often be stopped by removing wheels and roughening the brake lining with a file.

If the brake lining is worn down to the rivets, sink the rivets still farther or have the brakes re-lined.

Wipe off oil and grease mechanism every 500 miles, or often.

Make a regular systematic brake inspection a habit. The loss of a copper pin might lead to a serious accident. When a jack washer is removed, don't put it back; use a new one.

Keep the brakes adjusted properly. Brakes should not drag; if they do, they will heat up and be worn down unnecessarily. Brakes should not be too loose; loose brakes do not set quickly enough. Different adjustments are made for different types of brakes.

After the brakes are adjusted so that they are neither too tight or too loose, they should be tested every 500 miles, or at least once a month to make certain that the braking power is equal between the two rear wheels. Many cars glid, not only because of slippery streets, but also because of unequal division of braking power. Jack up rear wheels and apply brake far enough so that it is just possible to turn one wheel by hand. Adjust brake on other wheel so the same amount of energy is required to turn that wheel by hand.

(Tomorrow—How to Use Your Brakes)

MILES OF WIRE IN NEW
AUDITORIUM ORGAN

Workmen are still busy installing the Auditorium organ. Miles of wire have been laid in place and Captain MacKenzie stated this morning that sounds have been produced during tests. Six weeks have passed since the installation work was begun. It was thought that it would be completed by this time, but unforeseen difficulties have impeded progress. The section on the right side of the stage is finished, but several wires remain to be placed on the opposite side.

The console was put in position in the orchestra circle this week. It is planned to mount this on wheels so that it can be removed from place to place as the occasion requires. When not in actual use, it will be stationed behind the stage curtains in an out-of-the-way place.

Employees are now preparing the hall for the American Legion banquet and reception on July 12. The summer clean-up process is practically completed, the balcony, parquet and main floor having undergone a complete scouring and general cleanup. Labor day is regarded as the official opening of the fall and winter seasons.

Playgrounds Ready to Open
Continued

discussion of playground leagues and it was decided to organize a league for girls, which will include baseball, volleyball and track meets, while the boys will confine themselves to baseball and track events. The playground season will open next Monday and will continue for eight weeks, the hours to be from 6 to 11:15 a. m. and from 1 to 4:30 p. m.

The grounds were divided into four groups as follows: First group, Moody, Sheld, Fayette and Richmond; second, Varnum, Greenhorne, North common and Aiken; third, South common, Butler, Lincoln, Washington; fourth, Middlesex Village, Ayer, Shirley and Bartlett.

The playgrounds will be under the direction of Supt. Kieran, assisted by Arthur C. Sullivan, and the supervisors will be as follows:

Aiken street—Ruth M. Whelton, Ayer field—Helen McMahon, Butler school—Anna Ronine, Grace Burke, Edward Martin, Bartlett school—Helen M. Blessington, Fayette street—Lucy Deshong, Greenhorne school—Ages Dudley, Martha Gardner, Wm. L. Ritter, Lincoln teacher—Anna Perlman, Helen M. Coughlin, Edward Condon, Middlesex village—Agnes Joyce, Moody school—Lillian Sullivan, Esther Stocks, Shirley school—Estelle Coffey, Ed. Markham, Elizabeth Fulton, North common—Rose Brown, Agnes Maher, Doris Alexander, Honora McFiegan, Lincoln avenue—Mary Kelleher, Sheld park—Patrick J. McNamee, Dorothy MacAdam, South common—Mary Kelly, Marion Garvey, Mary Reynolds, Vincent McCarthy, Varnum school—Helen Mann, Lydia Lewis, Washington park—Baby Gahan, Mary Coffey, Walter J. Marleau, David school supervisors—Barbara Brown, Lillian Moran, Mary Dowd.

Since the election of the supervisors the following have tendered their resignations: James F. Conaway, James P. H. Roane, Arthur Lynch and Brendon V. McAdams. Vincent McCarthy has asked and was granted a leave of absence for two weeks. The following were elected to fill the vacancies caused by the resignations: Walter J. Markary, Patrick J. McNamee and William L. Riley. The supervisors will receive \$16 a week for their services.

Summer Review Course
Continued

French and mathematics will be taken up. Instruction will be so far as possible of a tutorial character, so that the pupils may receive real assistance in their studies. The work will fit in largely with the first two years of the high school course and because the classes were presented to the attention of the high school pupils before the close of the school, it is hoped there will be a large attendance of those who need the assistance the classes can render.

The work in the elementary classes at the Green school will be in arithmetic, history and reading, language and spelling and is intended for pupils who expect to be in the seventh, eighth or ninth grades in September.

Neither the high school nor the elementary school classes will certify pupils with respect to promotion on account of the work done in these classes, but nevertheless, the work will be reported to the day schools to which the pupils are attached and they will receive any deserved credit or recognition.

The sessions at the high school will be from 3:30 to 4:30 and at the Green school from 3 to 4:30 a. m. The teachers who will be in charge of the classes are as follows: Helen Moran, Superintendent; Joseph O. Pyno, Rosalie Hartman, Helen E. M. Cheate, George E. Lawrence and Lorita McNamee; George C. Elizabeth Peacock, Charlotte Watch, M. Alice White, Vera A. Givens, Mary A. McNamee and Theresa Glynn.

NEED CARS FOR
ORPHANS' OUTING

The annual outing for the children of the French-American orphans in Pawtucket street will be held next Tuesday at the O.M.I. novitiate in Tewksbury. The affair as previous years will be conducted under the auspices of the members of St. Joseph's sewing circle, but Mary Donovan has been placed in charge of the transportation. One hundred automobiles are needed to convey the children to and from the meeting grounds and the Honor 38 members are appeal to automobile owners to kindly donate their cars for the event. The automobiles will be needed between the hours of 4 and 6 in the forenoon and those willing to provide cars are requested to contact the members of the novitiate office at any time and at their earliest convenience.

THE OLD HOME TOWN

RAIN BRINGS FIREMEN
WELCOME REST

Rainy days are a welcome respite for drivers, and this day was no different from other moist days, as the blower at the central station was entirely free of alarms until after the noon hour. Several small fires kept the men on edge during the earlier part of last evening.

The damp in First street was the cause of a telephone alarm at 5 o'clock, and at 5:43 a telephone call was sent for a grass fire on Dunbar avenue. At 7:17 was sounded shortly after a siren for a gas tank fire in a house at 5 Baldwin street.

These fires called to a telephone at the 50 fire grounds damp at 8:15 a. m. and at 9:27 an automobile parked near First and John streets, 45-47 First, 3 was sent to the scene. The damage was of a minor nature. A telephone alarm was sent in for a barn fire in Colburn street, and one minute later, box 52 was pulled for the same fire. The recoil sounded a minute later. The upper section of the barn which was badly gutted by John Kelly, Walter J. Marleau, David school supervisors—Barbara Brown, Lillian Moran, Mary Dowd.

Since the election of the supervisors the following have tendered

their resignations: James F. Conaway, James P. H. Roane, Arthur Lynch and Brendon V. McAdams.

Vincent McCarthy has asked and was granted a leave of absence for two weeks. The following were elected to fill the vacancies caused by the resignations: Walter J. Markary, Patrick J. McNamee and William L. Riley. The supervisors will receive \$16 a week for their services.

BUZZING BEES
BOMBARD BEANERY

While timid spectators milled in the square about 4 o'clock yesterday afternoon, a bunch of busy bees buzzed around the Plaza Lunch, throwing consternation and alarm into the hearts of several persons interested in the company of bees by the swarming multitudes of unannounced visitors assembled on the swinging screen doors of the have of the hungry.

The squadron of buzzing bees arrived in our midst from parts unknown about 1 p. m., whining their way in joint formation at an altitude of about 30 feet, disregarding traffic laws and eventually parking on the screened partitions and swarming of the palatable Plaza, where they remained monarchs of all they surveyed for two or three hours.

Now a bee, according to Hoyle and others, is a shrewd individual but a plurality of bees, well in union there is strength; and these bees were united, don't get stung on that part of it. Led by the queen bee, they bombarded the lunchroom doors and no one dared to resist the invasion or to drown the queen or irritate her congenital subjects. It was diplomatically decided to let them be, and so they were until an early hour but eventually, when they unfolded their rested wings and went—where now? not far, not where.

I. W. W. OFFICIAL
BADLY BEATEN

GALVESTON, Tex., July 6.—James Holland, organizer for the marine transport workers division of the Industrial Workers of the World is in a hospital here suffering from wounds administered by unknown persons.

John Schubert, secretary of the transport workers division Holland and two other I. W. W.'s were beaten brutally by Port Arthur Tax police and then handed over to a small mob.

He demands Governor Neff immediately investigate.

BALLOON CAUGHT
IN THUNDERSTORM

FRANKFORT SPRINGS, Pa., July 6.—Caught between two thunder storms the American Legion balloon in the Indianapolis race landed in a walnut tree in this little out-of-the-way village.

Captain C. E. McCullough, the pilot, with the assistance of C. E. Culbert, the other member of the crew, came to earth without injury, although the balloon was damaged. It had attained a maximum height of 12,000 feet.

ARMY BALLOON LANDS

INDIANAPOLIS, Ind., July 6.—The army balloon piloted by Captain L. T. Miller, U. S. A., 8-5 in the national elimination balloon race, landed yesterday afternoon at 4:15 o'clock at Frankfort City, Pa., according to a telegram received today by the Indianapolis Star.

FINED FOR TAKING LAW
INTO OWN HANDSSEEK NEGRO FOR
MURDER OF GIRL

Hormisdes Deroches was fined \$10

in the district court this morning for assault and battery on Emil Chasse. It developed in the course of the testimony that defendant's brother and the complainant were involved in a partnership enterprise which dissolved shortly after organization. Deroches said Chasse owed him some money in connection with the business and the assault was the result of his endeavor to collect. The court reminded him that such methods were contrary to law and imposed the \$10 fine.

Charges of drunkenness and assault and battery, preferred by Kate Alexa against Bartley Miller, were continued until tomorrow, Miller being ordered to produce bonds in the sum of \$200.

Edgar Pelky, deaf mute, charged with the breeny of an automobile, was confined one week to await the arrival of his father from Portland, Me. He was arraigned on the charge yesterday and pleaded not guilty.

Alimie Goudreau failed to put in an appearance on a drunkenness complaint and was detained.

Bernard J. Flynn was found guilty of operating an automobile while he was under the influence of liquor and paid a fine of \$100. A drunkenness charge brought him a suspended sentence of three months in the house of correction.

Joseph Gouin is being held in jail until tomorrow. He is charged with drunkenness and operating an automobile while being drunk, but an additional and more serious charge of failing to stop after striking a pedestrian will be preferred against him.

A continuance until July 12 was granted Sam Shakes, for illegal keeping.

AGENTS FIRED AS
"NON-PRODUCERS"

WASHINGON, July 6.—Discharge of

18 New York prohibition agents on

July 1 was explained today at

prohibition headquarters as a weeding out of

"non-producers."

They were dismissed, officials said,

because they were not adapted or qualified for their work.

A number of other

prohibition agents throughout the

country also were removed July 1, with

the opening of the new fiscal year,

several executive positions were com-

bined in the interest of economy.

Body of Dead Woman Was

Found in Home Where She

Was Employed

SCARSDALE, N. Y., July 6.—Madeleine Farmer, 16-year-old farmer's daughter, today stood out as the one best hope of Westchester county authorities to fasten on a negro, as yet uncaught, the murder of Dorothy Kaufman, youthful Mennonite governess, whose slashed body was found Wednesday in the home of Magruder Craighead, where she was employed.
